No. 878.—The 25th February 1910.—With reference to the notifications of the Government of India, No. 9545—132, dated the 23rd December 1909, in the Department of Commerce and Industry, and No. 6460Exc., dated the 24th December 1909, in the Finance Department, and with the previous sanction of the Governor-General in Council, the Lieutenant-Governor is pleased to make the following rules as to the use of salt in curing fish in Bengal:—

1. These rules shall apply to the fish-curing industry in Bengal.

2. Fishermen desirous of obtaining a rebate of duty on salt used for fish-curing, which shall not exceed the duty payable on salt so used, as sanctioned in Supreme Government order No. 1257-1, dated the 5th February 1908, shall apply to the Collector of the district for the opening of a yard in which to cure their fish. No application for the opening of a yard shall be entertained unless the applicant undertakes to—

(1) provide a suitable site,
(2) erect buildings of the size and kind required by the department,
(3) fence the site to the satisfaction of the Collector, and
(4) pay for the cost of the preventive establishment that may be required for guarding the salt revenue.

3. On the application for opening a yard being sanctioned by the Collector with the approval of the Commissioner of Salt, necessary guarding establishment shall be provided by the Collector according to the requirement of each yard as determined by the Commissioner on the suggestion of the Collector. As each yard is established, orders shall be applied for as to the manner in which the duty-free salt required is to be provided.

4. Working hours at the yards shall be from sunrise to sunset. No person except the guarding establishment shall be allowed to remain or enter in the yard except during working hours and on business connected with curing.

5. No person shall take any salt out of the yard; fishermen must use the salt within the yard and take it from the store in quantities not less than a seer.

6. Fish shall be cleaned and prepared for curing before being brought to the yard, and all orders issued by competent authority as to the disposal of the refuse so as not to create a nuisance shall be attended to. Persons using the yards shall also comply with the instructions given by the officer in charge for the regulation of space and convenience of traffic.

7. The weight of each lot of fish brought to be cured shall be ascertained by striking an average from a sufficient number of baskets or pans full at the discretion of the officer in charge and entered in the register of fish cured when it is first brought to the yard, and again on removal after curing.

8. Loose salt clinging to fish after curing shall be carefully shaken or dusted off before the fish is weighed and removed.

9. All fish brought to the yards shall be attended to daily till it is cured and shall then be submitted for weighment and removal without delay. Any fish left unattended to for more than three days shall be liable to be removed at the expense and risk of the owner. Expenses of removal shall be recovered if not paid by sale of any salt or fish belonging to the owner that may be at the yard.

10. Any salt not in immediate use shall be kept in bags ticketted with the name of owner and shall be lodged in the store-room for safe custody out of working hours.

11. Surplus salt may be returned into store at the option of the owner provided it is in good condition; the officer in charge after crediting any salt so returned in the register of weighments of salt received and issued, shall give a receipt in the subjoined form, specifying the weight of the salt so returned. Refuse salt unfit for use shall be destroyed in the presence of the officer in charge.

No.	Name.	Date.	Quantity of salt.	Amount to be refunded.	Number and date of chalan in which price was included.	Number and date of entry of return into stock in Form No. 2.
1	2	3	4	5	6	7

12. The owner shall be bound to satisfy the officer in charge as to the quantity of salt used in curing each lot of fish, and the quantity used in each case, as well as the rate per maund of fish cured and the quantity remaining in hand after each operation, shall be recorded in the columns provided for the purpose in the register of fish cured at yards. When the proportion of salt used to fish cured exceeds one maund of salt to three of fish, the officer in charge shall make a note explaining the reason, or if he is not satisfied, shall report the circumstances for the orders of his immediate superiors.

13 The officer in charge of the yard shall keep the following books and accounts in the forms marked 1 to 3 here to annexed:—

(1) Abstract stock account.
(2) Weigh-book of all salt issued and received into stock.
(3) Register of fish (in two parts) cured at the yard.

14. Any person smuggling salt or otherwise misconducting himself will be debarred from the use of the yard in addition to any other penalty to which he may have made himself liable.

15. It shall be the duty of all Collectors and subordinate inspecting and supervising officers to prevent abuse of the privilege of obtaining salt free of duty for fish-curing and to use their intelligence in determining the direction in which special vigilance should be exercised. The manner in which the officer in charge of the yard uses the discretion allowed him in regard to the quantity of salt to be passed and the reasons given for the use of unusually large or small quantities of salt in curing at the yard, shall be carefully watched.

16. The outturn of the yard should be compared with the statistics of exports and imports and the estimated local consumption of the place.

24-Parganas.

No. 446M.—The 24th February 1910.—In exercise of the power conferred by section 17, sub-section (1), of the Cantonments Act, 1889 (XIII of 1889), and with the previous sanction of the Governor-General in Council, the Lieutenant-Governor is pleased to impose in the Cantonment of Dum-Dum the following tax, namely:—

A fee for the registration of carts not exceeding four rupees if the registration has effect for one year, and not exceeding two rupees if the registration has effect for half a year to be paid by the owner of every cart which is kept or is used in the ordinary course of business within the Cantonment, or which is let for hire within or without the Cantonment and is used in the ordinary course of business within it:

Provided that the said fee shall not be levied in respect of—

(*a*) carts which are the property of the Government or of the Cantonment Committee; or

(*b*) carts which are kept without the limits of the Cantonment and are only temporarily and casually used within the limits of the Cantonment.

24-Parganas.

No. 447M.—The 24th February 1910.—In exercise of the power conferred by section 17, sub-section (2), of the Cantonments Act, 1889 (XIII of 1889), and with the previous sanction of the Governor-General in Council, the Lieutenant-Governor is pleased to direct that the provisions of sections 142 to 147B (inclusive) of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), shall apply to the assessment and recovery of the fee for the registration of carts (imposed in the Cantonment of Dum-Dum by Notification No. of this date) in the following adapted form:—

Sections 142 to 147B of the Bengal Municipal Act, 1884, as adapted to the Cantonment of Dum-Dum.

OF THE REGISTRATION OF CARTS.

Registration and numbering of carts.

142. The *Cantonment Committee* may make and publish an order that every cart on which a registration fee is imposed by Notification No. 446M., of this date shall be registered by the *Cantonment Committee* with the name and residence of the owner, and shall bear the number of registration in such manner as the said *Committee* shall direct:

Provided always that such order shall be published at least one month before the beginning of the half-year in which such order for registration shall be enforced.

143. The registration of carts under the last preceding section shall be made, and the numbers assigned yearly or half-yearly, upon such days as the *Cantonment Committee* shall notify; and such fee as they shall from time to time fix and notify, not exceeding four rupees if the registration has effect for one year, and not exceeding two rupees if the registration has effect for half a year, shall be paid for each registration.

Fee for registration.

144. Any person becoming possessed of any cart which has not been registered for the then current period of registration shall register the same within one month from the date on which he may have become possessed thereof, and the *Cantonment Committee* shall grant registration in any such case on payment of such amount of the fee as shall bear the same proportion to the whole fee for the current period of registration as the unexpired portion of the current period of registration bears to the whole of such period; and such fee shall be calculated from the date on which such person may have become possessed as aforesaid.

Proportionate payment of fee.

145. When the ownership of any registered cart is transferred within any period of registration, it shall be registered anew, within one month of the transfer, in the name of the person to whom it has been transferred, and a fee not exceeding four annas shall be paid for every such last mentioned registration.

Transfer of ownership.

146. Whoever keeps, or is in possession of, a cart not duly registered as required by any of the three last preceding sections shall be liable to a fine not exceeding three times the amount payable by him in respect of such registration, exclusive of the amount so payable; and whoever, being the owner or driver of any cart, shall fail to affix thereto the registration number as required by section 142 shall be liable to a fine not exceeding five rupees.

Penalty.

147. If any person owns or keeps any cart hereinbefore required to be registered without having caused the same to be registered, the *Cantonment Committee*, or any person authorised by that Committee in that behalf, may seize and detain such cart (provided the same be not employed at the time of seizure in the conveyance of any passengers or goods), together with the animals drawing the same; and all police-officers are required, on the application of the *Cantonment Committee*, or of any servant of the *Cantonment Committee* duly authorized in that behalf, to assist in the said seizure.

Seizure and sale of unregistered carts.

After such seizure the *Cantonment Committee* shall forthwith issue a notice in writing that after the expiration of ten days they will sell such vehicle and animals by auction at such place as they may state in the notice; and if any registration fee, together with the cost arising from such seizure and custody, remains unpaid for ten days after the issue of such notice, the *Cantonment Committee* may sell the property seized for payment of the said fee and of all expenses occasioned by such non-payment, seizure, custody and sale.

The surplus sale-proceeds (if any) shall be credited to the *Cantonment* fund, and may be paid on demand to any person who establishes his right to the satisfaction of the *Cantonment Committee* or in a Court of competent jurisdiction:

Provided that if, at any time before the sale is concluded, the person whose cart has been seized shall tender to the *Cantonment Committee*, or to the person authorized by them to sell the cart, the amount of all the expenses incurred and the registration fee payable by him, the *Cantonment Committee* shall forthwith release the cart so seized.

Notwithstanding anything contained in this section, the surplus of the sale proceeds of a cart seized under this section may be devoted to the payment of any fine imposed under the last preceding section; and any cart which has been seized under this section may be sold for the realization of any such fine.

147A. Nothing in sections 142 to 147 shall be deemed to authorize the levy of more than one fee for the same period in respect of any cart which is used in the ordinary course of business *both in the Dum-Dum Cantonment and in one or more other Cantonments or in one or more Municipalities.*

Prohibition of double fee.

When carts not kept within the Dum-Dum *Cantonment* are so used in more than one *Cantonment* or municipality, the Local Government, on the application of the *Cantonment Committee*, may, if it thinks fit, apportion between all such *Cantonments* or municipalities and the Dum-Dum *Cantonment* the registration fees paid under the Bengal Municipal Act, 1884, in respect of such carts.

Apportionment of fees.

Where a cart is registered under the said Act in more than one *Cantonment* or municipality, the *Committee* of the *Cantonment* within which the cart is kept shall have a right to levy the registration fee in preference to the *Committee of any other Cantonment* or the Commissioners of any other municipality, as the case may be.

Levy of fee when cart registered in more than one Cantonment or Municipality.

147B. A cart shall be deemed to be used in the ordinary course of business within the meaning of sections 142 and 147A if it is used on an average twice a week.

Meaning of "used in the ordinary course of business."

NOTICE is hereby given that the right of Government, as specified in the conditions of sale below, to the undermentioned estates situate in the district of Bankura will be put up to sale at the Bankura Collectorate on Monday, the 21st March 1910, corresponding with 7th of Chaitra 1316B.S.

The purchaser will be subject to the following conditions of sale :—

Conditions of Sale.

1st.—The estate to be sold to the highest bidder above the upset price which will be fixed by the Collector at the time of sale. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the rent fixed in perpetuity and payable to the superior landlord.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings, and by the laws in force; and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below to the undermentioned estates situate in the district of Purnea, will be put up to sale at the Purnea Collectorate on Wednesday, the 23rd March 1910, corresponding to 27th Fagoon 1317 Fasli or 10th Chait 1317 Bengali.

The purchasers will be subject to the following conditions of sale :—

Conditions of Sale.

1st.—The estate to be sold to the highest bidder above the upset price, which will be fixed by the Collector at the time of sale. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity. The conditions regarding the payment of a land revenue fixed in perpetuity are not applicable to estates in temporarily-settled districts in which the land revenue should be fixed for the term of the current settlement and be subject to periodical revisions, on expiry of each settlement. In the case of an estate, situated in a permanently-settled area and yielding an annual rental of less than Re. 1, there should be no condition regarding payment of land revenue.

2nd.—The sale is subject to the existing leases and to the rights conferred by the settlement proceedings and by the laws in force; and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited If the balance be not paid by the noon of the fifteenth day after the sale, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

P. N. MUKHARJI, for Collector.

Advertisement of Sale.

Certificate case No. 256 of 1909-10 decided by the Certificate Officer of Bankura, in which the Secretary of State for India in Council was plaintiff and Rani Ananda Kumari Debi was defendant.

NOTICE is hereby given that, under rule 64 of order XXI of the Code of Civil Procedure, 1908, an order has been passed by this Court for the sale of the attached property mentioned in the annexed schedule in satisfaction of the claim of the decree-holder in the suit mentioned in the margin, amounting with costs and interest up to date of sale to the sum of Rs. 1,418-15-9.

The sale will be by public auction, and the property will be put up for sale in the lots specified in the schedule. The sale will be of the property of the judgement-debtors above named as mentioned in the schedule below; and the liabilities and claims attaching to the said property, so far as they have been ascertained, are there specified in the schedule against each lot.

In the absence of any order of postponement, the sale will be held by the Certificate Officer of Bankura at the monthly sale commencing at 12 o'clock on the 21st March 1910, corresponding to 7th Chaitra 1316 B.S., at Bankura. In the event, however, of the debt above specified and of the costs of the sale being tendered or paid before the knocking down of any lot, the sale will be stopped.

At the sale the public generally are invited to bid, either personally or by duly authorized agent. No bid by, or on behalf of, the judgement-creditors above mentioned, however, will be accepted, nor will any sale to them be valid without the express permission of the Court previously given. The following are the further—

Conditions of sale.

1. The particulars specified in the schedule below have been stated to the best of the information of the Court, but the Court will not be answerable for any error, misstatement or omission in this proclamation.
2. The amount by which the biddings are to be increased shall be determined by the officer conducting the sale. In the event of any dispute arising as to the amount bid, or as to the bidder, the lot shall at once be again put up to auction.
3. The highest bidder shall be declared to be the purchaser of any lot, provided always that he is legally qualified to bid, and provided that it shall be in the discretion of the Court or officer holding the sale to decline acceptance of the highest bid when the price offered appears so clearly inadequate as to make it advisable to do so.
4. For reasons recorded, it shall be in the discretion of the officer conducting the sale to adjourn it subject always to the provisions of rule 69 of order XXI.
5. In the case of moveable property, the price of each lot shall be paid at the time of sale or as soon after as the officer holding the sale directs, and in default of payment, the property shall forthwith be again put up and resold.
6. In the case of immoveable property, the person declared to be the purchaser shall pay immediately after such declaration a deposit of 25 per cent. on the amount of his purchase-money to the officer conducting the sale, and in default of such deposit the property shall forthwith be put up again and resold.
7. The full amount of the purchase-money shall be paid by the purchaser before the Court closes on the fifteenth day after the sale of the property, exclusive of such day, or if the fifteenth day be a Sunday or other holiday, then on the first office day after the fifteenth day.
8. In default of payment of the balance of purchase-money within the period allowed, the property shall be resold after the issue of a fresh notification of sale. The deposit, after defraying the expenses of the sale, may, if the Court thinks fit, be forfeited to Government, and the defaulting purchaser shall forfeit all claim to the property or to any part of the sum for which it may be subsequently sold.

Given under my hand and the seal of the Court this 9th day of February 1910.

Number of lot.	Description of property to be sold, with the name of each owner where there are more judgement-debtors than one.	The revenue assessed upon the estate or part of the estate, if the property to be sold is an interest in an estate or part of an estate paying revenue to Government.	Detail of any incumbrances to which the property is liable.	Claims, if any, which have been put forward to the property and any other known particulars bearing on its nature and value.

Notice to Tenderers, No. C-13.

I.—Sealed Tenders for the supply of the undermentioned supplies from 1st April 1910 to 31st March 1911 will be received by Station Supply Officer, Presidency Brigade, up to 12 noon on the 11th March 1910.

II.—Forms of "Tender" and "Schedules" (I. A. F. Z2120, 2121 and 2122) of the stores for the supply of which tenders are invited, are obtainable on payment at the rate of Re. 1 per set on application in writing up to 5th March 1910.

III.—Tenders will only be received in accordance with the conditions on these printed forms, which must be submitted in English and should specify in words as well as in figures the rate at which each description of article named in them will be delivered. Fractional parts of pies in rates will not be accepted. Tenders must be duly signed and completed in accordance with the instructions they contain.

IV.—Tenders should be accompanied by a deposit in the form of a Presidency Bank / Treasury Receipt or Government Promissory Notes, Provincial or Municipal debentures, or Port Trust bonds as earnest money at the rate of 2 per cent. on the total value of the stores tendered for, subject to a minimum as noted below, which deposit will be returned on acceptance or rejection of the tender. In the case of Promissory Notes being furnished they must remain in the name of the depositor.

V.—No security or deposit which the tenderer may have furnished in connection with a previous contract or on any other account can be accepted as earnest money.

VI.—The approval or rejection of tenders rests with the General Officer Commanding 8th Division, who reserves to himself the right of rejecting any tender, or any items in a tender, without cause assigned. The lowest tender will not of necessity be accepted.

VII.—Tenders will be opened at this office at 12 noon on Friday, the 11th March 1910. Tenderers are invited to attend.

VIII.—Parties tendering are particularly requested to give their addresses in full.

IX.—Any further information required can be obtained on application to this office between the hours of 10 A.M. and 4 P.M. (Sundays and holidays excepted).

X.—Tenders must be sent under a strong cover, securely fastened, sealed with a distinctive device and conspicuously marked "Tender for the supply of Charcoal," and addressed to the Station Supply Officer, Presidency Brigade, and not to any officer by name.

XI. Tenders which do not comply with the above conditions will be rejected.

NOTICE.

THE next annual stock-taking of the Indian Law Reports kept at the Bengal Secretariat Book Depôt will commence on the 1st April, 1910. The public are hereby informed that all issues of the said Reports from the said Depôt to subscribers and officials will be suspended during that month.

F. G. WIGLEY,

Secy. to the Bengal Legislative Council and Asst. Secy. to the Govt. of Bengal, Legislative Dept.

LEGISLATIVE DEPT.,
BOOK DEPÔT BRANCH;
The 7th December, 1909.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depôt, Calcutta,
or
the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

QUESTIONS AND ANSWERS

FIRE ON THE KHULNA-BARISAL MAIL STEAMER "*AKA*."

The Hon'ble BABU BHUPENDRA NATH BASU asked :—

(*a*) Has the attention of the Government been drawn to the reported serious loss of lives resulting from a fire having broken out in the Khulna-Barisal Mail steamer *Aka* ?

(*b*) Will the Government be pleased to inquire whether the fire originated in a pile of jute on board the steamer ?

(*c*) Is it true that the steamer ran aground before the fire broke out, and that there was no light or other indication to show the existence of *chur* land there ?

(*d*) Will the Government be pleased to make sifting inquiries as to what caused the fire, and the number of lives lost and the number of people injured ?

(*e*) Considering that jute is not allowed to be stored in dwelling-houses, or in godowns over which there are residential quarters, in Calcutta, will the Government be pleased to make rules prohibiting or restricting the conveyance of jute or other inflammable materials in mail or passenger steamers ?

The Hon'ble MR. BUTLER replied :—

(*a*) "The burning of the steamer *Aka* was at once reported to this Government.

(*b*), (*c*) and (*d*) "A Court of Inquiry under section 31 of the Inland Steam-vessels Act, 1884, has been appointed to investigate the circumstances attending the outbreak of the fire. The finding of the Court will be communicated to the Hon'ble Member.

(*e*) "The existing rules made under section 50 of the Inland Steam-vessels Act, 1884, for the protection of inland steamers from danger by fire, impose sufficient restrictions on steamers carrying jute or other inflammable materials, and it does not appear necessary to add to them."

THE PATNA COLLEGE.

The Hon'ble KHAN BAHADUR MAULVI SARFARAZ HUSAIN KHAN asked :—

Will the Government be pleased to state when the construction of the Laboratory buildings of the Patna College, for which administrative sanction has already been given, will be taken in hand ?

The HON'BLE MR. GOURLAY replied :—

"It has not been found possible to provide funds for the construction of the Laboratory buildings at Patna College during 1910-11. The work will be taken in hand as soon as funds are available, due consideration being given to the other projects in hand."

THE TEMPLE MEDICAL SCHOOL, BANKIPORE.

The Hon'ble KHAN BAHADUR MAULVI SARFARAZ HUSAIN KHAN asked :—

Will the Government be pleased to state how matters stand with regard to the construction of a fencing wall with ornamental railings in front of the Temple Medical School, Bankipore ?

The Hon'ble MR. WHEELER replied :—

"Estimates have been prepared, but it has not so far been found possible to allot funds for the work. Government is aware of the desirability of the improvement, and the matter will not be lost sight of."

EDUCATIONAL GRANTS.

The Hon'ble KHAN BAHADUR MAULVI SARFARAZ HUSAIN KHAN asked:—

Will the Government be pleased to state what amounts were given to private colleges in Bengal severally during the years 1906-07, 1907-08, 1908-09 and 1909-10—

(a) as special grants from Provincial and Imperial revenues separately, and

(b) as recurring grants from Provincial revenues?

and

The Hon'ble MAULVI SAIYID MUHAMMAD FAKR-UD-DIN asked:—

Will the Government be pleased to enlighten the public as to the amount of grants-in-aid allowed by the Local Government to each of the several colleges of this province during the years 1906-07, 1907-08 and 1908-09?

The Hon'ble MR. GOURLAY replied as follows to both these questions:—

"The Hon'ble Members will find the information asked for in the statistical statement (prepared by the Director of Public Instruction) which is laid upon the table."

Statement showing approximately the extent of Government contribution to private Colleges in Bengal, in 1906-07, 1907-08, 1908-09, and 1909-10.

The Hon'ble MAHARAJ-KUMAR GOPAL SARAN NARAYAN SINGH asked :—

(*a*) Will the Government be pleased to state how much aid per year is given by the State to the private colleges in Behar, and how much is spent on the up-keep of the Government College at Patna?

(*b*) Will the Government be pleased to state how much is spent on the Presidency College in Calcutta, and how much aid per year is given by the State to the different colleges in Bengal?

The Hon'ble MR. GOURLAY replied :—

(*a*) "During 1908-09 State aid to private colleges in Behar was approximately as follows :—

		Rs.
1.	Behar National College, Bankipore	9,755
2.	Tej Narayan Jubilee College, Bhagalpur ...	4,000
3.	Bhumihar Brahman College, Muzaffarpur ...	2,000

"During the same period the Patna College cost Government Rs. 41,729.

(*b*) "During 1908-09 State aid to private colleges in Bengal was approximately as follows :—

		Rs.
1.	Scottish Churches College	20,259
2.	St. Xavier's College	15,640
3.	L. M. S. College, Bhawanipur	5,000
4.	Victoria College, Narail	3,800
5.	Bangabasi College	20,480
6.	St. Columba's College, Hazaribagh	22,000
7.	Metropolitan Institution	17,920
8.	Daulatpur Hindu Academy	12,000
9.	Herampur College	2,000
10.	Wesleyan Mission College, Bankura	5,300
11.	Bishop's College	2,000

"During the same period the Presidency College cost Government Rs. 1,00,265."

DISTURBANCE IN THE BETTIAH SUB-DIVISION.

The Hon'ble MAULVI SAIYID MUHAMMAD FAKR-UD-DIN asked :—

(*a*) Is the Government aware that about the time of the deplorablet disturbance in the Bettiah sub-division of the Champaran district, the tenants petitioned the Government to have an independent inquiry made regarding their grievances?

(*b*) Was such an inquiry made by Mr. Gourlay, Director of Agriculture, under the orders of the Government?

(*c*) Has Mr. Gourlay's report on the subject been received by the Government? If so, will the Government be pleased to publish the same?

(*d*) Does the report disclose any permanent grievances of the raiyats? If so, what action has the Government taken, or does it propose to take, to redress the grievances, and when may the public expect to receive a final pronouncement on the subject?

The Hon'ble MR. DUKE replied :—

(*a*) *and* (*b*) "The answer is in the affirmative."

(*c*) "Mr. Gourlay's report has been received."

(*c*) *and* (*d*) "The report is under the consideration of this Government, and will be submitted in due course to the Government of India. Pending the receipt of the orders of the Government of India, this Government is unable to discuss the recommendations made in the report or the question of its publication."

DISTRICT AND LOCAL BOARDS IN THE TIRHUT DIVISION.

The Hon'ble BABU BRAJA KISHOR PRASAD asked:—

(a) Is the present Government of Bengal aware that in August, 1908, at the Government House, Bankipore, an address was presented to Sir Andrew Fraser, the late Lieutenant-Governor of Bengal, by a deputation of the people of Behar, organised by the Behar Landholders' Association, the Behar Provincial Association, and the Behar Provincial Muslim League?

(b) Is the present Government aware that in the said address the attention of the late Lieutenant-Governor was drawn to the following point?—

> "...... that the District Boards in the Tirhut Division have an overwhelming preponderance of the members of the European Planting Community, which materially affects the chances of the Beharees in the Tirhut Division of acquiring training and experience in methods of Local Self-Government ...."

(c) Is the present Government of Bengal aware that the late Lieutenant-Governor, in his reply to the said address, stated as follows?—

> "...... you refer to the representation of the European Planting Community on the District Boards in the Tirhut Division ... .. I have obtained the figures, and I certainly agree with you that the matter requires consideration ...... It is certainly desirable that the interests with which the work of the District Boards is concerned should be represented on the Boards with some degree of reasonable proportion."

(d) Will the Government be pleased to state what action has been taken, since the said reply was given, in the direction indicated by the late Lieutenant-Governor?

The Hon'ble MR. WHEELER replied:—

(a), (b) and (c). The answer is in the affirmative.

(d) "Under the amended Local Self-Government Act full authority has been delegated to Commissioners of Divisions to appoint the members of District Boards. The Commissioner of the Tirhut Division (then included in the Patna Division) was addressed on the subject in September 1908. The Lieutenant-Governor has since obtained further figures up to date, and has again communicated with the Commissioner. The Lieutenant-Governor in no way disagrees with the views expressed by Sir Andrew Fraser in 1908 in this matter."

MADARIPUR *BHIL* ROUTE.

The Hon'ble RAI SITA NATH RAY BAHADUR asked:—

(a) Will the Government kindly enlighten the public as to what has become of the project submitted by Mr. Stevenson-Moore, while Magistrate of the 24-Parganas, for the opening of a boat canal in continuation of the Madaripur *Bhil* route terminating into the river Hooghly near Budge-Budge?

(b) In view of the fact that the present so-called outer route is very unsafe and dangerous to inland steamers and flats, inasmuch as they have to pass through the Sundarbans and cross the mouth of the Bay, which causes a delay of two to three days in the journey to and from the Eastern districts, and the fact that the opening of a direct route between Calcutta and these districts would cause a great saving in both freight and time, will the Government be pleased to consider the advisability of opening such a direct route?

(c) If the scheme seems feasible, will the Government be pleased to communicate with the Government of Eastern Bengal for taking joint action in the matter and at joint expense?

The Hon'ble MR. BUTLER replied:—

"I have considered it advisable to reply to all three questions by one answer so as to avoid reiteration.

"Mr. Stevenson-Moore reported in favour of a proposal made by Mr. Lees, Superintending Engineer, that there should be a direct steamer route between Khulna and the Hooghly *viâ* Tolly's Nullah.

"That proposal is now being considered from a financial aspect by this Government in communication with the Government of India.

"The cost will probably exceed one hundred lakhs, and unless the scheme can be regarded as a productive work, it will have to be abandoned.

"In the event of the present inquiries tending to show that the scheme could be a productive work, the financing will have to be carried out by the Imperial Government, and it would be for them to decide whether the Government of Eastern Bengal and Assam should be addressed on the subject."

TOLLY'S NULLAH.

The Hon'ble RAI SITA NATH RAY BAHADUR asked:—

(*a*) Has the attention of the Government been drawn to the silted-up state of the Tolly's Nullah, especially between the boat canal and Goria?

(*b*) Is it a fact that, the above portion having silted up, rice-laden boats cannot approach the great rice mart of Chetla?

(*c*) Has the Government received any representations from traders as to inconvenience resulting to the trade of Chetla from the silting up of the nullah?

(*d*) Is it not a fact that tolls are levied on boats passing along the Tolly's Nullah?

(*e*) Has the amount realised from tolls on Tolly's Nullah been spent on improving the nullah?

(*f*) Will the Government be pleased to take prompt steps for making the nullah navigable at all times?

(*g*) Will the Government be pleased to state whether any scheme for the canalisation of the Tolly's Nullah for boat traffic only is under consideration?

The Hon'ble MR. BUTLER replied:—

(*a*) "Yes."

(*b*) "It is not so, for at high tide rice-laden boats can have access to Chetla."

(*c*) "One Indian gentleman has written to Government seven letters complaining of the inconvenience and suggesting remedies."

(*d*) "Yes."

(*e*) "Not the whole."

(*f*) "With reference to this question, I would refer the Hon'ble Member to my reply to his questions concerning the Madaripur *Bhil* route.

(*g*) "No such scheme is under consideration."

THE PROVINCIAL SERVICE.

The Hon'ble BABU BHUPENDRA NATH BASU asked :—

Will the Government be pleased to lay on the table a statement showing the appointments to the Provincial Executive Service made since the abolition of competitive examinations, giving the following particulars ?—

(1) (*a*) number of appointments in each Division filled up by nomination and the dates of such appointments,

(*b*) the nationality and religion of the candidates appointed,

(*c*) educational qualifications,

(2) and also, as regards the appointments made on the recommendation of the Calcutta University, the numbers, nationality and religion of the candidates, and their educational qualifications. In case of these last appointments, have University qualifications been always given the preference ?

(3) and also to furnish the same particulars as regards the appointments made by the Government directly without the recommendations of the Divisional Commissioners or the University.

The Hon'ble MR. DUKE replied :—

"The particulars asked for in the three sections of the question are contained in the statements placed on the table.

"As regards appointments made on the recommendation of the University, the rule prescribes that the Syndicate shall be invited annually to nominate six graduates of high character whom they regard as the most distinguished students of the year. From amongst these, or graduates previously nominated under the same rule, the Lieutenant-Governor will, after inquiry, make three selections. The Lieutenant-Governor has no reason to believe that the Syndicate have not complied strictly with the provisions of the rule."

THE PROVINCIAL SERVICE.

The Hon'ble MR. K. B. DUTT asked :—

(a) Is the Government aware that there is a good deal of disappointment, and, in consequence, discontent, among members of the Executive branch of the Provincial Civil Service, on account of repeated extensions being granted, varying from two to five years, to the members of the aforesaid Service who are now in the first grade?

(b) Will the Government be pleased to stop giving such extensions in future beyond the period of one year?

The Hon'ble MR. DUKE replied :—

(a) "Government is not aware that reasonable disappointment or discontent prevails among members of the Executive Branch of the Provincial Civil Service.

(b) "The policy of Government in respect of extensions of service is laid down in Article 459 of the Civil Service Regulations. The substance of this article is as follows :—

(a) an officer who has attained the age of 55 may be required to retire by the Local Government under which he is employed;
(b) the rule should be worked with discretion in order to avoid depriving the State of the valuable experience of really efficient officers and adding unnecessarily to the non-effective charges. In the case of officers holding superior appointments, the standard of efficiency by which retention is to be decided is above the standard required in lower appointments. In every case in which the rule is enforced, the reasons for enforcing it should be recorded;
(c) each such officer's case should be taken up when he is 55 years old, and before the expiry of each extension of service. In every case the extension should be given for not more than one year at a time;
(d) an officer who has attained the age of 60 cannot be retained in the service of Government save in very exceptional circumstances, and with the sanction of the Local Government.

"This policy is in strict accordance with the directions of the Secretary of State communicated in the Despatch of the 23rd May, 1889, which were expressed as follows :—

'I desire, however, to point out that the question of requiring the retirement of an officer at the age of 55 years should be decided with reference to the efficiency of the officer and the interests of the public service, and that the rule in question should not be enforced merely for the sake of giving promotion to juniors, thereby unnecessarily adding to the charges for superannuation.'

"The guiding principle is that the services of every public officer should be retained so long as he is thoroughly efficient in the performance of his duties, and no longer. It is obviously not to the interests of the public to pay pensions to men who might be profitably employed.

"The age of 55 in no way indicates a limit for employment. It represents merely the age at which experience has shown that it becomes necessary to make special inquiry as to whether an officer is still fully efficient.

"The Lieutenant-Governor sees no reason to institute any change of policy in this respect."

DÂK BUNGALOWS IN HAZARIBAGH AND RANCHI.

The Hon'ble MR. K. B. DUTT asked :—

(a) Will the Government be pleased to state whether the provisions of clause (i) of section 100 of the Bengal Local Self-Government Act of 1885 have been extended to the District Boards of Ranchi and Hazaribagh? If so, when?

(*b*) Will the Government be pleased to state whether any rules have been framed by His Honour the Lieutenant-Governor of Bengal under the provisions of section 100 of the said Act? If so, where are the same to be found?

(*c*) Is the Government aware that the District Board of Hazaribagh has opened a house, under the name of Dâk Bungalow, in Hazaribagh, for the residence and accommodation of visitors and families seeking change or pleasure, and have constituted a committee, consisting of the Civil Surgeon, the Superintendent of Police, the Senior Deputy Magistrate, and the District Engineer, for its management, and that the District Board has been advertising the existence of such an institution in Calcutta papers, inviting people to come and stay there on certain terms, in the following words?—

"A fully-furnished Dâk Bungalow has been opened under the District Board, with a committee, consisting of the Civil Surgeon, Superintendent of Police, Senior Deputy Magistrate and District Engineer. It is located in a well-lighted and well-ventilated *pucca* building, with a full set of out-houses, stables and *garage*, and is centrally situated near the Post and Telegraph Offices, the Club, golf links, and the Courts. Charge is Rs. 4 a day for a single gentleman and Rs. 5-8 and Rs. 6-8 for married couples. Further particulars can be had from the District Engineer, Hazaribagh."

(*d*) Will the Government be pleased to state how much money the Board have spent in connection with the said institution up to date?

(*e*) Will the Government be pleased to pass orders directing the closure of the bungalow in question?

(*f*) Is the Government aware that a suit against the District Board of Hazaribagh is going to be instituted for the alleged misapplication of the District Board funds in constructing and maintaining the said institution?

(*g*) Will the Government be pleased to state whether a similar institution has been established at Ranchi with the District Board funds?

(*h*) If so, will the Government kindly state the amount of money spent thereupon up to date?

The Hon'ble MR. WHEELER said:—

"I ask permission to answer this question at the next meeting of Council. The papers were sent to His Honour the Lieutenant-Governor on tour, and they have not as yet been received back."

The answer to this question was accordingly postponed to the next meeting of the Council.

THE BENGAL CESS (AMENDMENT) BILL, 1909.

The Hon'ble Mr. W. C. Macpherson moved that the Bill to amend the Cess Act, 1880, be referred to a Select Committee, consisting of the Hon'ble Mr. Slacke, the Hon'ble Mr. Collin, the Hon'ble Mr. Wheeler, the Hon'ble Maharaja Sir Prodyot Kumar Tagore, the Hon'ble Sir Bijay Chand Mahtab, Maharajadhiraja Bahadur of Burdwan, the Hon'ble Rai Shiba Shankar Sahai Bahadur, the Hon'ble Mr. Das and the Mover.

The motion was put and agreed to.

THE CALCUTTA PORT (AMENDMENT) BILL, 1909.

The Hon'ble Sir Frederick Dumayne moved that the figures "1910" be substituted for the figures "1909" in clauses 1 and 3 (*1*) of the Bill further to amend the Calcutta Port Act, 1890.

The motion was put and agreed to.

The Hon'ble Sir Frederick Dumayne also moved that the Bill, as amended in Council, be passed.

The motion was put and agreed to.

THE CALCUTTA AND SUBURBAN POLICE (AMENDMENT) BILL, 1909.

The Hon'ble Mr. Duke moved that the Hon'ble Mr. Gourlay be added to the Select Committee on the Bill further to amend the Calcutta Police Act, 1866, and the Calcutta Suburban Police Act, 1866.

He said :—

"The Hon'ble Mr. Cumming was a Member of this Committee. Mr. Cumming has gone on furlough, and Mr. Gourlay has succeeded to his office. That is the reason of the motion."

The motion was put and agreed to.

THE BENGAL MUNICIPAL (AMENDMENT AND VALIDATION) BILL, 1909.

The Hon'ble Mr. Wheeler presented the Report of the Select Committee on the Bill to declare the meaning of certain words in clause (*b*) of section 66 of the Bengal Municipal Act, 1884.

The Hon'ble Mr. Wheeler then moved that the Report of the Select Committee be taken into consideration.

He said :—

"The objects of the Bill were explained by me two Councils ago, and the opinions received have not added very much to the facts which were then known. The measure has been generally accepted as suitable, and the only suggestion of the Select Committee is a formal one for the alteration of the year."

The motion was put and agreed to.

The Hon'ble Mr. Wheeler also moved that the Bill be passed.

The motion was put and agreed to.

RESOLUTIONS.

The Hon'ble BABU BAIKUNTHA NATH SEN was to have moved the following Resolutions :—

I.—The Council recommend to the Lieutenant-Governor—

(*a*) that the system of appointment to the Provincial Service by nomination be abolished, and

(*b*) that the competition test be restored, and

(*c*) that competitive examinations for the selection of the requisite number of officers for the Executive Branch of the Provincial Service be held in as many centres as there are seats of Divisional Commissioners, with such standards for the test as may be deemed proper and fair.

II.—Should the recommendation for competitive examination, as made in the foregoing Resolution, be not deemed fit to be accepted, the Council further recommend to the Lieutenant-Governor that a competitive special examination be held for selection amongst those candidates who may be nominated by the Divisional Commissioners and the Calcutta University.

Certain other Members were to have moved amendments to the foregoing Resolutions.

The Hon'ble BABU BAIKUNTHA NATH SEN said:—

"Instead of moving the Resolutions which stand in my name this day, I ask Your Honour to permit me to move these Resolutions at the next meeting. My reasons for asking for this adjournment are these. On the last occasion when I asked for a postponement, I waited for certain information which was to be given in reply to questions which were put by my Hon'ble colleague, Babu Bhupendra Nath Basu. The information has now been given, and it has been placed on the table to-day. There has not been sufficient time to study it. Besides, there are four amendments proposed, and I have consulted with three of my Hon'ble colleagues who proposed amendments, and they also think that they should have further time to study the figures which have been supplied in response to the Hon'ble Babu Bhupendra Nath Basu's questions. The question being an important one, it should be discussed after a thorough study of the papers. If Your Honour will permit (and I think the Hon'ble gentlemen who have sent in amendments to my Resolutions are agreeable), I will move the Resolutions at the next meeting."

The Vice-President:—

"If the Hon'ble Member sees no objection, and if the movers of the amendments are willing, I would postpone the discussion of these Resolutions and the amendments thereto to Monday, the 14th of March. The next meeting of the Council will be on the 12th of March; but owing to that day being the Convocation Day, there will be no time to take up these Resolutions and amendments on that day, because the Revised Financial Statement is to be presented. Therefore, if you see no objection, I would postpone this to the 14th."

The motions were accordingly postponed till the 14th March.

The Council was adjourned to Saturday, the 12th March, 1910.

Acts of the Governor General's Council assented to by the Governor General.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

ACT NO IV OF 1910.

The following Act of the Governor General of India in Council received the assent of the Governor General on the 25th February 1910, and is hereby promulgated for general information:—

An Act further to amend the Indian Companies Act, 1882.

VI of 1882.

WHEREAS it is expedient further to amend the Indian Companies Act, 1882; It is hereby enacted as follows:—

Short title.

1. This Act may be called the Indian Companies (Amendment) Act, 1910.

VI of 1882.

Insertion of new sections after section 73.

2. After section 73 of the Indian Companies Act, 1882, the following shall be inserted, namely:—

"*Payment of interest out of capital.*

Power of Company to pay interest out of capital in certain cases.

"73A. Where any shares of a Company are issued for the purpose of raising money to defray the expenses of the construction of any works or buildings or the provision of any plant which cannot be made profitable for a lengthened period, the Company may pay interest on so much of that share capital as is for the time being paid up for the period and subject to the conditions and restrictions in this section mentioned, and may charge the same to capital as part of the cost of construction of the work or building, or the provision of plant:

Provided that—

(*1*) no such payment shall be made unless the same is authorized by the Company's articles of association or by special resolution;

(*2*) no such payment, whether authorized by the articles of association or by special resolution, shall be made without the previous sanction of the Governor General in Council;

(*3*) before sanctioning any such payment, the Governor General in Council may, at the expense of the Company, appoint a person to inquire and report to him as to the circumstances of the case, and may, before making the appointment, require the Company to give security for the payment of the costs of the inquiry;

(*4*) the payment shall be made only for such period as may be determined by the Governor General in Council, and such period shall in no case extend beyond the close of the half-year next after the half-year during which the works or buildings have been actually completed or the plant provided;

(*5*) the rate of interest shall in no case exceed four per cent. per annum or such lower rate as the Governor General in Council may, by notification in the Gazette of India, prescribe;

(*6*) the payment of the interest shall not operate as a reduction of the amount paid up on the shares in respect of which it is paid;

(7) the accounts of the Company shall show the share capital on which, and the rate at which, interest has been paid out of capital during the period to which the accounts relate;

(8) nothing in this section shall affect any Company to which the Indian Railway Companies Act, 1895, or the Indian Tramways Act, 1902, applies.

X of 1895. IV of 1902.

Re-issue of Redeemed Debentures.

Power to re-issue redeemed debentures in certain cases.

"73B. (1) Where either before or after the passing of this Act a Company has redeemed any debentures previously issued, the Company, unless the articles of association or the conditions of issue expressly otherwise provide, or unless the debentures have been redeemed in pursuance of any obligation on the company so to do (not being an obligation enforceable only by the person to whom the redeemed debentures were issued or his assigns), shall have power, and shall be deemed always to have had power, to keep the debentures alive for the purposes of re-issue, and where a Company has purported to exercise such a power the Company shall have power, and shall be deemed always to have had power, to re-issue the debentures either by re-issuing the same debentures or by issuing other debentures in their place, and upon such a re-issue the person entitled to the debentures shall have, and shall be deemed always to have had, the same rights and priorities as if the debentures had not previously been issued.

(2) Where with the object of keeping debentures alive for the purpose of re-issue they have either before or after the passing of this Act been transferred to a nominee of the Company, a transfer from that nominee shall be deemed to be a re-issue for the purposes of this section.

(3) Where a Company has either before or after the passing of this Act deposited any of its debentures to secure advances from time to time on current account or otherwise, the debentures shall not be deemed to have been redeemed by reason only of the account of the Company having ceased to be in debit whilst the debentures remained so deposited.

(4) The re-issue of a debenture or the issue of another debenture in its place under the power by this section given to, or deemed to have been possessed by, a Company, whether the re-issue or issue was made before or after the passing of this Act, shall be treated as the issue of a new debenture for the purposes of stamp-duty, but it shall not be so treated for the purposes of any provision limiting the amount or number of debentures to be issued:

Provided that any person lending money on the security of a debenture re-issued under this section which appears to be duly stamped may give the debenture in evidence in any proceedings for enforcing his security without payment of the stamp-duty or any penalty in respect thereof, unless he had notice or, but for his negligence, might have discovered, that the debenture was not duly stamped, but in any such case the Company shall be liable to pay the proper stamp-duty and penalty.

(5) Nothing in this section shall prejudice—

(a) the operation of any decree or order of a Court of competent jurisdiction passed or made before the date of the passing of this Act as between the parties to the proceedings in which the decree was passed or the order made, and any appeal from any such decree or order shall be decided as if this Act had not been passed; or

(b) any power to issue debentures in the place of any debentures paid off or otherwise satisfied or extinguished, reserved to a Company by its debentures or the securities for the same."

J. M. MACPHERSON,
Secretary to the Government of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Act of the Governor General of India in Council received the assent of the Governor General on the 25th February 1910, and is hereby promulgated for general information :—

ACT NO. V OF 1910.

An Act to provide for the prevention of the spread of Dourine.

WHEREAS it is expedient to provide for the prevention of the spread of dourine; It is hereby enacted as follows:—

Short title and extent.

1. (1) This Act may be called the Dourine Act, 1910.

(2) This section extends to the whole of British India: the rest of this Act extends only to such areas as the Local Government may, by notification in the local official Gazette, direct.

Definitions.

2. (1) In this Act, the expressions "inspector" and "veterinary practitioner" mean, respectively, the officers appointed as such under this Act, acting within the local limits for which they are so appointed.

(2) The provisions of this Act in so far as they relate to entire horses shall, if the Local Government, by notification as aforesaid, so directs, apply also to entire asses used for mule-breeding purposes.

Registration of horses.

3. The Local Government may, by notification as aforesaid, make such orders as it thinks fit directing and regulating the registration of entire horses maintained for breeding purposes.

Appointment of inspectors and veterinary practitioners.

4. (1) The Local Government may, by notification as aforesaid, appoint any persons it thinks fit to be inspectors, and any qualified veterinary surgeons to be veterinary practitioners, under this Act, and to exercise and perform, within any area prescribed by the notification, the powers conferred and duties imposed by this Act upon such officers respectively.

(2) Every person so appointed shall be deemed to be a public servant within the meaning of the Indian Penal Code. XLV of 1860.

Powers of inspector.

5. An inspector may, subject to such rules as the Local Government may make in this behalf,—

(a) enter and search any building, field or other place for the purpose of ascertaining whether there is therein any horse which is affected with dourine; and

(*b*) prohibit, by order in writing, the owner or keeper of any horse, which in his opinion is affected with dourine, from using such horse for breeding purposes, pending examination by the veterinary practitioner.

Duties of inspector.

6. An inspector issuing an order under section 5, clause *b*), shall forthwith forward a copy of such order to the veterinary practitioner.

Inspection of horses.

7. A veterinary practitioner receiving a copy of an order forwarded under section 6 shall, as soon as possible after receipt of such copy, examine the horse mentioned therein, and may for such purpose enter any building, field or other place.

Powers of veterinary practitioner.

8. A veterinary practitioner may—

(*a*) cancel any order issued under section 5, clause (*b* ; or,

(*b*) if on microscopical examination he finds that any horse is affected with dourine,—

(i) in the case of an entire horse, cause it to be castrated,

(ii) in the case of a mare, cause it to be branded in such manner as he may direct, or with the previous sanction of the Commissioner or such other officer as the Local Government may appoint in this behalf, cause it to be destroyed.

Compensation for horse destroyed, etc.

9. When any horse is castrated or destroyed under section 8, the market-value of such horse immediately before it became affected with dourine shall be ascertained; and the Local Government shall pay as compensation to the owner thereof—

(*a*) in the case of a mare which has been destroyed, or of an entire horse which has died in consequence of castration, such market-value, and,

(*b*) in the case of an entire horse which survives castration, half the amount by which such value has been diminished owing to infection with dourine and castration.

Settlement of compensation.

10. (*1*) A veterinary practitioner may award, as compensation to be paid under section 9 in respect of each horse castrated or destroyed under section 8, a sum not exceeding two hundred and fifty rupees.

(*2*) If in the opinion of the veterinary practitioner the amount which should be paid as such compensation exceeds two hundred and fifty rupees, he shall report accordingly to the Collector, who shall decide the amount to be so paid.

Committees for hearing appeals.

11. (*1*) The Local Government shall, by rules published in the local official Gazette, make provision for the constitution of a committee or committees for the hearing of appeals from decisions under section 10.

(*2*) Such rules shall provide that not less than one member of any committee constituted thereunder shall be a person not in the employ of Government or of a local authority.

Appeals.

12. Any owner may, within two months from the date of a decision under section 10, appeal against such decision to the committee constituted in that behalf by rules made under section 11, and the decision of such committee shall be final.

Vexatious entries and searches.

13. (*1*) Whoever, being an inspector appointed under this Act, vexatiously and unnecessarily enters or searches any field, building or other place, shall be punishable with imprisonment for a term which may extend to six months, or with fine which may extend to five hundred rupees, or with both.

(*2*) No prosecution under this section shall be instituted after the expiry of three months from the date on which the offence has been committed.

Rules.

14. (*1*) The Local Government may make rules for the purpose of carrying into effect the provisions of this Act.

(*2*) In particular, and without prejudice to the generality of the foregoing power, such rules as aforesaid may—

(*a*) regulate entries, searches and orders by inspectors under section 5;

(*b*) regulate the action to be taken by veterinary practitioners under section 8; and

(*c*) make provision for the payment of compensation to the owner of any mare branded under section 8.

(*3*) All such rules shall be published in the local official Gazette, and, on such publication, shall have effect as if enacted in this Act.

(*4*) In making any rule under this section the Local Government may direct that a breach of it shall be punishable with fine which may extend to fifty rupees.

Penalties.

15. Whoever uses or permits to be used for breeding purposes—

(*a*) any horse which has not been registered in accordance with the requirements of a notification under section 3, or

(*b*) any horse in respect of which an order under section 5, clause (*b*), is in force, or

(*c*) any mare which has been branded in pursuance of section 8, clause (*b*),

shall be punishable with fine which may amount, in the case of a first conviction to fifty rupees, or, in the case of a second or subsequent conviction, to one hundred rupees.

Protection to persons acting under Act.

16. No suit, prosecution or other legal proceeding shall lie against any person for anything which is, in good faith, done or intended to be done under this Act.

J. M. MACPHERSON,

Secretary to the Government of India.

The mean pressure, temperature, etc., are deduced from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. The rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

GENERAL DEPARTMENT.

NOTIFICATION.

No. 1268.—The 5th March 1910.—The following rules, made by the Burial Board for the Town and Suburbs of Calcutta under section 8 of the Calcutta Burial Boards Act, 1881 (Ben. Act V of 1881), in supersession of all previous rules made under that section, have been sanctioned by the Lieutenant-Governor, and the fees and charges prescribed in Part VI of the rules have been sanctioned by the Government of India:—

Calcutta.

I.—Jurisdiction.

1. Under section 5 of Act V (B.C.) of 1881, the general management of, and control over, the following Cemeteries have been vested in, and are exercised by, the Board:—
The North, South, and Mission Cemeteries in Park Street.
The Lower Circular Road Cemetery.
The Ekbalpur Cemetery at Kidderpore.
The Tiretta or French Cemetery.

II.—Meetings of the Board.

1. A meeting of the Board shall be held ordinarily on the first Monday in each month. Four members of the Board shall be a quorum.
2. The Chairman may summon a special meeting when he thinks fit, and shall do so when required by three members of the Board.
3. In the absence of the Chairman at any meeting of the Board the members present (being a quorum) shall choose one of their number to preside.
4. All questions shall be decided by a majority of votes. The Chairman of the meeting shall have a second or casting vote.
5. Minutes of the proceedings of all meetings of the Board shall be kept by the Secretary, and shall be signed by the Chairman.
6. Matters of emergency, and matters not provided for by the rules, shall be referred by the Secretary for the orders of the Chairman. All such references, with the orders passed thereon, shall be laid before the next monthly meeting for confirmation.
7. The members of the Burial Board shall be monthly Visitors of the cemeteries in rotation and shall record in a book any remarks on the state of the same. The Superintendent shall send a notice on the first day of each month to the member whose turn it is to visit, reminding him of the fact, and, on the last day of each month, the Remark Book for any entries. The Visitors' remarks shall be read at the monthly meetings of the Board.

III.—Graves.

1. The area to be used for graves in every cemetery shall be divided into grave-spaces which shall be serially numbered so that the portion of each grave-space may be readily ascertained.
2. A corresponding map or maps of the burial ground shall always be kept at some convenient place, and shall be open to the inspection of all persons. Every grave-space shall be delineated on such map and its number inscribed thereon. A book shall also be kept with such map or maps in which all interments made in the aforesaid grave-spaces and their dates shall be entered.
3. No grave-space shall exceed 9 feet by 5 feet in superficial dimensions, and every grave shall be constructed so as to leave a space of at least 1 foot on all sides between it and the boundary of the grave-space.
4. No masonry grave shall, for the first interment therein, be constructed to a perpendicular depth of less than 6 feet, and no non-masonry grave to a depth of less than 5 feet; and a measuring rod shall be kept in each cemetery on which shall be legibly marked the perpendicular depth herein prescribed; and it shall be incumbent on every person having control or being in charge of a cemetery to satisfy himself by the use of such rod that, prior to any interment being made therein, each grave is of the prescribed depth.
5. Grave-spaces shall be occupied consecutively according to the date of application, and no grave-space shall be allotted out of its regular serial order.
6. No masonry grave shall be re-opened until after the expiry of eight years from the last interment made therein, except in order to inter another member of the same family, in which case a layer of earth shall be left undisturbed above the last previously interred remains of not less than 6 inches in depth; provided that no soil shall be disturbed which, when the grave is re-opened, shall be found to be offensive.

Provided also that no second interment may take place unless there is room to place at least 3 feet of earth between the top of the coffin and the surface of the ground at it ordinary level

Provided also that no second interment may take place within twelve months of the previous one.

7. The land used for a non-masonry grave, if not purchased, may be re-used after a period of eight years, provided that no soil shall be disturbed which, when the grave is re-opened, shall be found to be offensive.

8. The enclosure round a grave shall consist of a metal railing, or chains, or bars of metal supported on iron or masonry pillars. Wooden or masonry enclosures shall not be permitted.

9. No person who is not in the service of the Board shall be permitted to dig graves within the Cemeteries under the care of the Board, save as the Board may otherwise appoint.

10. All masonry graves shall be constructed in accordance with plans and specifications. and with materials approved by the Board, and shall be arched in after the interment to the satisfaction of the Board.

11. In the case of a non-masonry grave no right shall be acquired to the exclusive use of the ground, unless the land is purchased, in which case the purchaser shall have the same rights and be subject to the same obligations in respect of interments as the owner of a masonry grave. But, after the lapse of one year, a non-masonry grave may be converted into a masonry grave on a written application to the Board, and on payment of the difference between the fee already paid and the fee leviable under the rules.

12. The Commissioner of Police shall have power to order the exhumation of corpses when such exhumation is considered necessary by him for police purposes, and he shall forthwith give information to the Board of any such order for disinterment. Otherwise no disinterment shall be made without a special order of the Chairman, who, before giving such sanction, shall obtain the concurrent permission of the Archdeacon of Calcutta in cases arising within a Church of England cemetery, or portion of a cemetery, and of the Archbishop of Calcutta in cases arising within a Roman Catholic cemetery, or portion of a cemetery. In regard to the general portion of a cemetery, the Chairman of the Burial Board shall obtain, if possible, the sanction of the representative of the denomination concerned. A list of those to whom application is to be made for such sanction shall be kept in the Secretary's office, and revised quarterly after communication with the persons named therein.

In urgent cases the Superintendent may give leave for exhumation within 12 hours of the burial, notifying the fact at once to the Chairman.

13. The ashes of cremated bodies, if interred in an urn or other suitable receptacle, may be exhumed at any time with the sanction of the Chairman. Nothing in rules 3, 4, 6 and 7 shall apply to the interment of the ashes of cremated bodies.

IV.—Monuments.

1. All applications for the erection of monuments, or alterations or additions to the same, shall be made to the Secretary of the Board, and shall shew the proposed design and inscription and cost of the same.

2. No monument or head-stone of any description shall be placed over a non-masonry grave, unless the grave-space has been purchased. The foundations in this case shall be not less than 5 feet in depth

3. The superficial area of a monument erected upon a grave shall not, without the special sanction of the Chairman exceed 8 feet by 4 feet

Provided that the use of masonry, or of wood or other perishable materials for monuments shall not be allowed. This shall not apply to crosses, which may be made of wood.

4. The Board will undertake to keep in repair any monument for the repair of which a sum of money, or an annual payment deemed sufficient by the Board, shall be deposited or made.

5. If any monument which the Board has not undertaken to keep in repair falls into a ruinous condition, the Board may call upon the friends of the deceased to repair it, and if they neglect to do so, or if they cannot be traced, the Board may deal with such monument at its discretion.

NOTE.—In the above rules the term monuments includes head-stones, slabs, and all other memorials of the dead and grave enclosures.

V.—Endowment of Monuments.

1. An endowment fee of Rs. 15 shall be charged when a person wishes to endow a single stone monument.

2. All other monuments shall be divided into two classes :—

(i) Plain and solid monuments which are likely to require only occasional repair ; and

(ii) Elaborate monuments and other monuments which are likely to require special attention or frequent repair.

An endowment fee of Rs. 30 shall be charged for monuments of the first class, and of Rs. 75 for monuments of the second class. The classification shall rest with the Executive Engineer, Public Works Department, 2nd Calcutta Division, but any person objecting to his decision may appeal to the Chairman, Christian Burial Board.

NOTE.—In the case of a child's monument these fees may be reduced to Rs. 20 and Rs. 50 respectively, provided that the monument does not exceed 5 feet by 3 feet.

3. On the recommendation of the Executive Engineer, Public Works Department, 2nd Calcutta Division, a higher fee may be charged in cases where fees on the classified scale are insufficient.

4. No addition to an existing monument in any cemetery under the Board shall be allowed beyond mere lettering on existing slabs, head-stones, or crosses, unless the whole monument is endowed.

5. The endowment is intended to cover the expense of ordinary annual maintenance, relettering, and repairs, but not the risk of accidents due to floods, earthquakes or other extraordinary causes. It is open to any person to provide for extraordinary repairs by making a special endowment, in addition to the ordinary endowment fixed by the Executive Engineer, Public Works Department, 2nd Calcutta Division, under rules 1-3. This special endowment shall, however, be limited to the amount necessary to cover such work as the Board can undertake to execute.

6. The interest accruing on deposits shall be applied to meet the expenditure for the repair of those monuments, for the preservation of which deposits have been made.

VI.—Fees and Charges.

1. The following fees shall be payable to the Board in respect of any burial in a non-masonry grave in any cemetery under the care of the Board :—

4. A copy of the Registration of Burial, over the signature of the Secretary of the Board, shall be given on payment of Re. 1 as searching fee and Re. 1 as copying fee.

5. Any person may acquire and appropriate, for a grave for himself and his family, a space of land not exceeding 9 feet by 5 feet by external measurement on payment of a fee of Rs. 60. No fee shall be charged on the placing of a border not exceeding 6 inches in height, delimiting a grave space by the person acquiring the same.

6. A certificate (or "pottah") securing a right of interment shall be granted by the Board to the purchaser of a grave-space on payment of the necessary stamp duty.

7. All fees and charges not paid to the credit of the Board's account in the Bank of Bengal shall be payable to the Secretary.

8. The person or firm applying for permission for a burial, or for the erection of any monument or addition to a monument, shall be responsible for the payment in advance of all fees connected therewith.

VII —Undertakers.

1. In cases of burial in the Cemeteries under the Board a certificate of the cause of death shall be obtained by the undertaker or other person conducting the funeral, who will sign and deliver the said certificate to the Superintendent for the person officiating at the funeral as an authority for the burial. Such certificate shall be signed by a Medical Practitioner or other responsible person competent to vouch for the accuracy of its contents.

2. In the event of no certificate of the cause of death being furnished, the Superintendent shall give notice to the nearest police-station.

3. It shall be the duty of each licensed undertaker, at the time of applying for permission to erect a monument in any of the Cemeteries, to lodge in the Board's office a correct copy of the estimate of the cost of the monument accepted by the person ordering the monument.

4. Licensed undertakers shall attend personally all funerals conducted by them, or shall be represented by agents who have previously been approved by the Board, and registered as agents to act for them.

5. A list of all such persons, signed by the Chairman, shall be kept at the Board's office. Any undertaker, or employee of an undertaker, violating the terms of the Board's Rules, or misconducting himself in the performance of his duties, either within the Cemetery or in his dealings with any person by whom he may be so employed, shall be held liable to have his license suspended, revoked, or cancelled, or to forfeiture of any sum fixed by the Board, not exceeding Rs. 25 in any one particular case. Undertakers are liable to have their materials and their work inspected by the Public Works Department, and condemned if inferior. In such a case fresh materials shall be used, and the work re-executed.

6. The work connected with the erection of any monument shall be completed within a maximum period of four months from the date of its commencement.

7. A complaint-book shall be kept in the charge of the Superintendent at every cemetery controlled by the Board in which complaints may be entered on any matter connected with the burial of the dead, and the complaint-books shall be placed before the Board at their regular meetings.

8. The Superintendent is authorised to stop any work which he considers inferior, pending a reference to the Engineer.

9. Except for the purpose of fitting up, no stone is to be cut or chipped within the Cemeteries. All rubbish shall be cleared away as soon as the work is completed.

10. Notices of evening funerals shall be sent to the Superintendent of the Cemetery before noon, and notices of morning funerals not later than 9 P.M.

VIII.—Servnats of the Board and their duties.

1. The Superintendent shall have general charge of the Cemeteries, and shall be directly responsible for the due observance of the Rules, and for the maintenance of the Cemeteries in a proper condition.

2. Servants of the Board drawing salaries of Rs. 20 and upwards per mensem shall be appointed by the Board at a meeting; servants drawing salaries below Rs. 20 may be appointed by the Chairman. Any servant may be suspended or dismissed by the authority by which he was appointed.

3. The Superintendent may suspend any of his subordinates for breach or neglect of duty, reporting his action for the approval of the Chairman. Any servant of the Board who shall accept any fee, perquisite or gratuity, other than authorised pay, for the performance of any duty under the Board, shall be liable to immediate dismissal.

4. The office of the Board shall be at the Circular Road Cemetery, and office hours shall be 6 to 10 A.M. and 4 to 6-30 P.M., except on Sundays and public holidays. When absent on urgent business during these hours, the Superintendent shall leave a notice with the Durwan stating where he has gone, and the probable time of his return. From 10 A.M. to 4 P.M. the Assistant shall be present to attend to all work.

5. All books and registers shall be kept at the office, and shall be open for inspection by a member of the Board.

6. The Superintendent shall keep the plans of the Cemeteries, and shall mark on each, at the time of the interment, the grave then occupied, entering the required particulars in a corresponding register.

7. No monuments or materials for graves shall be brought into the Cemetery without the sanction of the Superintendent. He shall report to the Executive Engineer the arrival of any materials which may seem to him defective.

8. Ordinarily no work, except the conduct of funerals, shall be allowed on Sundays.

9. All gates, except the main gate, shall be kept locked, and shall be opened only for funerals and on special occasions.

10. The main gate shall be shut at sunset.

11. The Durwans shall be held responsible for any irregularity or damage committed at night.

12. Malis shall not be permitted to sell or give away any fruit or flowers. Any complaint regarding the neglect of, or damage to, graves or monuments shall be enquired into by the Superintendent. He shall keep a record of such complaints, and bring them to the notice of the Board at their next meeting.

13. The Durwans are authorised to keep all idlers out of the Cemeteries.

14. No hearse, coach, or other vehicle, and no animal shall be allowed within any Cemetery; provided that this shall not apply to carts or animals engaged on work. No noise or other disturbance, and no riotous or improper conduct, will be permitted within the Cemeteries.

IX.—Accounts.

1. The Board shall submit to the Government annually, in the month of February, a budget statement of the estimated receipts and expenditure for the ensuing financial year.

2. The Board shall also submit to Government annually, before the end of the month of June, an account of the receipts and expenditure of the last financial year.

3. The Superintendent shall submit at the monthly meeting of the Board a statement of the receipts and expenditure of the preceding month. He shall use vouchers with counterfoils in granting receipts for money received, and keep a register in the form prescribed at the Cemetery.

4. Numbered receipts signed by the Secretary shall be given to undertakers in printed form with counterfoils for all payments. A certificate in the prescribed printed form shall be furnished by all licensed undertakers to the Board's office not later than the 3rd of each month, stating that receipts have been obtained, under the signature of the Secretary, for all fees paid by them during the preceding month.

5. All money received by 2 P.M. shall be sent to the Bank on the same day. The Standing Auditor shall be required to see that all daily collections have been brought to credit in the accounts and regularly remitted to the Bank every day. He shall also submit a report of his having done so at every meeting of the Board.

6. The Board, if desired, will undertake on a fixed charge, to be determined by the Board, to provide, flowers, shrubs, etc., for any grave, and all moneys paid by private individuals to the Superintendent for this purpose will be acknowledged by the Board.

7. A separate account shall be kept of expenditure incurred on repairs of monuments under Section IV, Rule 3.

8. The Board's accounts shall be audited by an auditor or auditors appointed by the Board.

X.—Miscellaneous.

1. Notice boards shall be put up at the main gate of each Cemetery, containing all necessary information to the public.

2. All persons committing suicide, who are Roman Catholics by denomination, shall be buried in the unconsecrated portion of the Cemetery allotted to that denomination, unless the funeral is attended by a Priest, or unless a Priest gives a written certificate that the interment may be made in the consecrated ground.

3. The Superintendent, if appointed by the Chairman of the Corporation under section 526 (4) of the Calcutta Municipal Act in that behalf, may be Sub-Registrar in any cemetery under the Board's control.

mines are situate under the said land, and whereas the Huriladih Coal Company, Limited, have given notice to the Government of Bengal, in accordance with the provisions of Act XVIII of 1885, that the said Company intend to work the seam known as No. 17 seam, and whereas the mines have been inspected by the officer appointed by the Bengal Government for the purpose under section 5 (1) of Act XVIII of 1885, and whereas it appears to the Bengal Government that the working out of the coal of the mines underlying the said land is likely to cause damage to the surface of the said land and to the works constructed thereon and whereas the said Huriladih Coal Company, Limited, have agreed not to work and get minerals underlying the land acquired for their siding, or underlying the land acquired for the branch or other lines with which the siding is connected or underlying the land of the branch or branches connecting the said siding with the main line, in such a manner as to injure or to endanger the safety of the undertaking or any part thereof, nor to claim any compensation for any restricted working:

Now, therefore, the Lieutenant-Governor of Bengal is pleased to declare, under section 5, sub-section (2), clause (b) of the abovementioned Act, XVIII of 1885, that the working shall be carried on by the said Huriladih Coal Company, Limited, in the manner and subject to the restrictions below specified, viz. :—

(a) Galleries may be driven ten feet wide and any convenient height, with centres fifty feet apart, forming pillars forty feet square to be left unworked for the support of the acquired land.

(b) Manholes not exceeding six feet in height by three feet in width by four feet in depth may be made where required by any rule made under the Indian Mines Act, 1901.

(c) Any inrush of water, quicksand or soft material shall be reported to the Chief Inspector of Mines in India without delay.

(d) These restrictions apply to No. 17 seam only and to the area edged with pink upon the plan, and the Huriladih Coal Company, Limited, shall give notice, under section IV of the Land Acquisition (Mines) Act, 1885, of their intention to work any other seam under this area or to work coal under any other area of acquired land, and that in all the above cases no further excavation shall be made in any of the galleries which already have been driven, the actual heights and widths of which have been carefully recorded on the plan marked L. A. M. A. No. 87A signed by the Chief Inspector of Mines.

The plan referred to may be seen in the office of the Chief Inspector of Mines in India by the parties concerned.

W. R. GOURLAY,

Offg. Secy. to the Govt. of Bengal.

DECLARATION.

No. 1160 J.—The 8th March 1910.—Whereas certain land was acquired by the Bengal Government, under the provisions of Act I of 1894 and Act XVIII of 1885, for a public purpose, viz., for such portions of the Bhowra Branch extension and Dongree siding of the Bengal-Nagpur Railway as are edged with pink on the plans marked L. A. M. A. No. 151A and No. 151B and whereas coal mines are situate under the said land, and whereas the Indian Collieries Syndicate, Limited, have given notice to the Government of Bengal, in accordance with the provisions of Act XVIII of 1885, that the said Company intend to work the seams known as Nos. 17 and 18 seams, and whereas the mines have been inspected by the officer appointed by the Bengal Government for the purpose under section 5 (1) of Act XVIII of 1885, and whereas it appears to the Bengal Government that the working out of the coal of the mines underlying the said land is likely to cause damage to the surface of the said land and to the works constructed thereon, and whereas the said Indian Collieries Syndicate, Limited, have agreed not to work and get minerals underlying the land acquired for their siding, or underlying the land acquired for the branch or other lines with which the siding is connected or underlying the land of the branch or branches connecting the said siding with the main line, in such a manner as to injure or to endanger the safety of the undertaking or any part thereof, nor to claim any compensation for any restricted working:

Manbhum.

Now, therefore, the Lieutenant-Governor of Bengal is pleased to declare, under section 5, sub-section (2), clause (b) of the abovementioned Act, XVIII of 1885, that the working shall be carried on by the said Indian Collieries Syndicate, Limited, in the manner and subject to the restrictions below specified, viz. :—

(a) No galleries shall be driven or any coal extracted in any place where the distance from the top of the gallery, if driven, to the natural surface is less than fifty feet.

(b) Where the distance from the top of the gallery, if driven, to the natural surface is fifty feet or more, only such galleries shall be driven the approximate direction of which is shown by red lines on the plans. Such galleries shall not exceed twelve feet in width.

(c) Manholes not exceeding eight feet in height by three feet in width by four feet in depth may be made where required by any rule made under the Indian Mines Act, 1901.

(d) Any inrush of water, quicksand or soft material shall be reported to the Chief Inspector of Mines without delay.

(e) The above restrictions apply to Nos. 17 and 18 seams only and to the area edged with pink on the plans, and the Indian Collieries Syndicate, Limited, shall give notice, under section IV of the Land Acquisition (Mines) Act, 1885, of their intention to work any other seam under the above area, or to work coal under any other area of acquired land, and that in all the above cases no further excavation shall be made in any of the galleries which already have been driven, the actual heights and widths of which have been carefully recorded on the plans, marked L. The erection of any new embankment or any addition to an existing embankment, or the obstruction or diversion of any watercourse within the tract above defined, without the previous permission of the Collector of Monghyr, is prohibited.

T. BUTLER,
Secy. to the Govt. of Bengal.

RAILWAY DEPARTMENT.

The 4th March 1910.

No. 4R.—Notification.—Whereas it appears to the Lieutenant-Governor of Bengal that land is likely to be required to be taken by Government at the public expense for a public purpose, viz., for the construction of the Dehri-Rohtas Tramway in the village of Ratoobigha, appertaining to mahal Hadaha, pargana Sasaram, zilla Shahabad, it is hereby notified that for the above purpose a piece of land measuring, more or less, 40 bighas 18 cottahs 8 chitaks of standard measurement, or 13·53 acres, bounded on the—

FIRST PLOT.

North—By District Board road,
South—By the field of Rameshar, Parmeshar and Manohar Koiri,
East—By the field of Bandhoo and Manohar Koiri,
West—By District Board road and Makund Singh's parti.

SECOND PLOT.

North—By the field of Rameshar, Parmeshar, Peryag, Pakira and Lachman Koiri,
South—By the field of Rameshar, Parmeshar, Peryag, Lachman and Chhour,
East—By District Board road,
West—By canal,

is likely to be required within the aforesaid village of Ratoobigha, appertaining to mahal Hadaha.

This notification is made, under the provisions of section 4 of Act I of 1894, to all whom it may concern.

T. BUTLER,
Secy. to the Govt. of Bengal.

MARINE DEPARTMENT.

The 7th March 1910.

No. 24 *Marine.*—In exercise of the powers conferred upon him by section 29 of the Inland Steam-vessels Act, 1884 (VI of 1884), the Lieutenant-Governor proposes to make the following amended rules to regulate the granting of certificates of competency to engineers and engine-drivers of inland steam-vessels, in supersession of those published in the notifications of this department—

No. 23 Marine, dated the 2nd April 1894.
No. 178 „ „ 24th August 1891, and
No. 118 „ „ 8th December 1894.

The revised rules will be taken into consideration on the expiry of a month from the date of publication of this notification in the *Calcutta Gazette*, and the Lieutenant-Governor will be glad to consider any objections or suggestions which may be made by any person concerning them within that period.

T. BUTLER,
Secy. to the Govt. of Bengal.

REGULATIONS RELATING TO THE EXAMINATION OF ENGINEERS AND ENGINE-DRIVERS OF INLAND STEAM-VESSELS.

Certificates of competency granted to persons who pass requisite examinations.

1. Certificates of competency will be granted to those persons who pass the requisite examinations and otherwise comply with the requisite conditions. For this purpose examiners have been appointed and arrangements have been made for holding the examinations periodically at the Port of Calcutta.

Examinations continued till all the candidates are examined.

2. The examinations will commence early in the forenoon, and will be continued until all the candidates whose names appear upon the Port Officer's list on the day of examination are examined.

Application how to be made.

3. Candidates for examination must make their application upon form Exn. 3*b*, which must be filled up at the Port Office.

Candidates unable to write English must apply at the Port Office for a copy of form Exn. 3*b* and the same must be filled up before the Port Officer before submission at the Port Office.

The Exn. 3*b*, properly filled in, together with the candidate's testimonials, must be lodged with the Port Officer not later than three days before the day of examination.

Testimonials required.

4. Applicants will be required to produce, in addition to the usual forms of discharge, satisfactory testimonials as to sobriety, experience, ability, and general good conduct for at least the last 12 months' service on boardship preceding the date of application to be examined.

An applicant already possessed of a certificate and wishing to appear for one of a higher grade must produce his certificate and all the discharges and testimonials he submitted when he applied for examination in the lower grade as well as the discharges and testimonials necessary for the higher grade certificate. Should references of doubtful authenticity be submitted by candidates for examination, the examining officer may require proof from the candidate of their genuineness, or an affidavit made to that effect.

If applicants have served on shore immediately preceding their application, certificates of sobriety to be produced from their employers, or from a respectable householder if unemployed. No candidate will be allowed to be examined unless he has served on boardship two years within the last six years, and six months within the last three years preceding the date of his application to be examined.

5. As such testimonials and discharges may have to be verified before the candidates can be examined, it is desirable that these should be handed over, together with the form Exn. 3*b*, as early as possible.

Testimonials of Foreigners.

6. The testimonials of servitude of Foreigners and of British seamen serving in foreign vessels, which cannot be verified in the Port Office, must be confirmed either by the Consul of the country to which the ship in which the candidate served belonged, or by some other recognized official authority of that country, or by the testimony of some credible person on the spot, having personal knowledge of the facts required to be established. The production, however, of such proofs will not of necessity be deemed sufficient. Each case must be decided on its own merits; and if the sufficiency of the proofs given appears to be at all doubtful, the point must be referred to the Government.

Certificate as to age.

7. Should any doubt exist as to the age of a candidate, he will be required to produce a certificate of birth or baptism.

Foreigners to know English.

8. Foreigners must prove to the satisfaction of the examiners that they can speak and write the English language sufficiently well to perform the duties required of them on board a British vessel.

9. Testimonials of servitude must ordinarily be based on their employers' office records.

Services claimed which cannot be verified from the employers' office records must be authenticated by affidavits of men under whom such services have been performed as well as by an affidavit of the candidate himself.

Testimonials of servitude from European engineers will be accepted.

10. Candidates will be required to account for any gaps in their services, with document ary evidence.

Qualifications for Certificates of Competency as Second-class Engine-drivers.

11. A candidate for a certificate of competency as second-class engine-driver must have attained the age of twenty-one years.

12. (*a*) He must have served an apprenticeship of at least four years if in India, or three years if in the United Kingdom, and have served for one year in the engine-room of a steamer; or

(*b*) He must have served four years in the engine-room of a steamer at sea, or on inland waters, two years of which service must have been as serang or principal tindal in a vessel of not under 20 nominal horse-power; or

(*c*) He must have been for two years in charge of the engine of a factory or mill under a European manager or engineer, as well as served one year in the engine-room of a steamer of not under 20 nominal horse-power as serang, or principal tindal.

13. He must pass a *vivâ voce* examination before the Board of Examiners as to the working of steam-engines and boilers.

14. He must be able, if required, to show his practical qualifications by one week's trial in a steamer after fulfilling the other tests to which he will be subjected.

Qualifications for Certificates of Competency as First Class Engine-drivers.

15. A candidate for a certificate of competency as First Class Engine-driver must have attained the age of twenty-two years.

16. He must produce a certificate of competency as second class engine-driver together with all the testimonials and certificates of discharge on which he obtained the same.

17. (*a*) He must have served an apprenticeship of at least four years if in India, or three years in the United Kingdom, and have served as assistant engineer for one year on a steamer of not less than 50 nominal horse-power; or

(*b*) He must have served for five years in the engine-room of a steamer at sea or on inland waters, three years of which service must have been as serang or principal tindal of a steam-vessel of over 50 nominal horse-power; or

(*c*) He must have served for one year as second driver with a second class engine-driver's certificate of a steam-vessel of over 50 nominal horse-power; or

(*d*) He must have served for 18 months as serang or principal tindal with a second class engine-driver's certificate of a steam-vessel of over 30 nominal horse-power; or

(*e*) He must have served for three years in charge of the engine of a factory or mill under an European manager or engineer, as well as two years as serang, or principal tindal, or assistant engineer, in the engine-room of a steamer of over 50 nominal horse-power.

18. He must have the testimonial shown in Appendix B filled up by the engineer with whom he has last served, or his other testimonials must contain all the particulars therein required.

19. He must pass a *vivâ voce* examination before the Board of Examiners as to the working of steam-engines and boilers.

20. He must be able, if required, to show his practical qualifications by one week's tria l in a steamer after fulfilling the other tests to which he will be subjected.

Qualifications for Certificates of Competency as Engineers.

21. A candidate must be not less than twenty-two years of age—

(a) He must have served an apprenticeship to an engineer of three years in England or five years in India, and must prove that during the period of his apprenticeship he has been employed on the making and repairing of engines. Or, if he has not served an apprenticeship, he must prove that for not less than three years in England or five years in India he has been employed as a journeyman or master-hand in some factory or workshop on the making or repairing of engines. In either case he must also have served two years thereafter in the engine-room of a steamer of over 80 nominal horse-power or as a certificated engine-driver in a steamer of not less than 50 nominal horse-power, or

Failing the above service, he must have served as a certificated engine-driver in charge of a steamer of not less than 50 nominal horse-power for four years.

(b) He must be able to give a satisfactory description of boilers, and the methods of staying them, together with the use and management of the different valves, cocks, pipes, and connexions.

(c) He must understand how to correct defects from accident, decay, &c., and the means of repairing such defects.

(d) He must understand the use of the water gauge, pressure gauge, barometer, thermometer and salinometer, and the principles on which they are constructed.

(e) He must state the causes, effects, and usual remedies for incrustation and corrosion.

(f) He must be able to explain the method of testing and altering the setting of the slide valves, and method of testing the fairness of shafts and adjusting them.

(g) He must be able to calculate the suitable working pressure for a steam boiler of given dimensions, and the stress, per square inch, on crank and tunnel shafts when the necessary data are furnished.

(h) He must understand the construction of steering engines. evaporators, feed filters, and feed heaters.

(i) He must understand the construction of centrifugal bucket, and plunger pumps, and the principle on which they act.

(j) He must be able to state how a temporary or permanent repair could be effected in case of derangement of a part of the machinery, or total breakdown.

(k) He must write a legible hand, and have a good knowledge of arithmetic up to and including vulgar and decimal fractions and square and cube roots. He must also understand the application of these rules to questions about safety valves, coal consumpsion, consumption of stores, capacities of tanks, bunkers, &c.

(l) He must be able to pass a creditable examination as to the various constructions of paddle and screw engines in general use, as to the details of the different working parts, external and internal, and the use of each part.

(m) He must possess a creditable knowledge of the prominent facts relating to combustion, heat and steam.

(n) He must be able to pass an examination in rough working drawing which may, at the candidate's option, be either hand sketches, clearly dimentioned and complete in the necessary views and sections or drawings to a scale. Drawing boards and T-squares will be provided, but applicants will have to bring with them any drawing instruments they may require.

General Rules as to Examinations.

22. All books necessary for the use of candidates under examination will be provided and applicants will not be permitted to take into the examination room any book, paper, document, or memoranda of any description whatever; and, subject to the provisions referred to hereafter, they will also not be allowed to work out their problems on a slate or on waste paper.

Candidates not to take books, &c., into examination room.

23. Candidates will be allowed in the time allotted to cancel any part of their work, and, when required, additional papers will be supplied by the examiners. These additional sheets must be attached to, and form part of, the examination papers.

24. In the event of any candidate being discovered copying from another, or affording any assistance or giving any information to another, or communicating in any way with another during the time of examination, he will be regarded as having failed in his examination, and will be turned back for three months, in the same manner as if he had failed in the practical part of the examination; and no part of the fees he may have paid for examination will be returned to him.

Punishment for breaking rules.

Leaving examination room.

25. If a candidate leaves the room before answering any question which has been given to him, he cannot afterwards be permitted to answer it, but the examiners may substitute other data or another question.

Questions and answers.

26(*a*). The examination of candidates for certificates of competency as engineers consists of four parts:—Arithmetic, Drawing, Elementary questions and *vivâ voce*. When the number of marks obtained in arithmetic amounts to 28, that is, two-thirds of the maximum the candidate passes in arithmetic.

(*b*). All applicants presenting themselves for examination for certificates of competency as engineers will be required to give written answers to ten questions selected from form Exn. 15*a*, "Elementary Questions for the first Examinations of Engineers for Certificates of Competency." (Appendix A). These questions are intended to furnish a record to some extent of the candidate's knowledge at the time of his examination, and also to induce the candidates to pay more attention to their handwriting and spelling.

27. The form Exn 15*b*, on which these answers will be written, contains also some questions as to the experience of the applicant, to be answered by him in writing.

28. Examiners may add to their *vivâ voce* questions on the practical management of steam-engines and boilers any of those contained in Exn. Form 15*a*.

29. If at the expiration of the time allowed the candidate has worked out correctly the whole of the questions set to him, and given satisfactory answers in the *vivâ voce* examination. he will be declared to have passed.

30. If at the expiration of the time allowed he has not worked out the whole of the questions set to him, but if the result of the *vivâ voce* examination, taken in connection with the answers to such of the questions as he has worked out, is sufficient to satisfy the examiners that the applicant is competent to take charge of engines, he will be declared to have passed.

31. In other cases he will be declared to have failed.

32. A report of the examination, and the examination papers, will be forwarded to the Government on the form Exn. 15.

Notification of having passed will be given to successful candidates. Exn. 16.

33. If the candidate passes, he will receive the form Exn. 16 upon which the Government will issue the certificate to the candidate, whose testimonials, &c., will be returned at the same time. It is therefore important that the port of destination of the certificate should be the same on both the form Exn. 16 and the form Exn. 2. If circumstances should make any alteration necessary, the examiners should see that it is made in both forms, otherwise delay in the issue of the certificate may be caused.

Fees.

Fees to be paid by applicants for examination.

34. Candidates for examination, in making their application on form Exn. 3*b*, will be required to pay the examination fees before any step is taken, whether by inquiring into their services or testing their qualifications, &c. No part of the fee will under any circumstances be returned to them; but should it be found that their service is not sufficient to entitle them to be examined, or that their testimonials are unsatisfactory, they will be allowed to present themselves for examination without paying any further fee, when they have fulfilled the requisite service, or are able to produce satisfactory testimonials, as the case may be.

35. The fee for examination must be paid to the Port Officer. In any case in which a candidate offers money to any other officer, and in any place but in the Port Office, the candidate so offering money will be regarded as having committed an act of misconduct, and will be rejected and not allowed to be examined for 12 months.

36. If a candidate fails in his examinations, *no part of the fee he has paid will be returned to him.*

37. The fees are as follows:—

	Rs.
Second class engine-drivers	4
First class engine-drivers	10
Engineers	12

Failure.

38. If the applicant fails in the *vivâ voce* or practical part of the examination, he may not present himself for re-examination until he can produce proofs of three months' further service afloat. If he fails in arithmetic or drawing only, he may come up again at any time. Engine-drivers may be examined *de novo* after six months' active service as serang or prinicipal tindal or second-driver if the past examination showed that they might reasonably be expected to qualify.

General.

39. Certificates of competency of engineers and first and second-class engine-drivers shall be made out and issued in the forms hereunto annexed.

40. Every certificate of competency shall be made in duplicate, and one copy shall be delivered to the person entitled to the certificate, and the other shall be kept and recorded by the Port Officer of Calcutta.

ELEMENTARY QUESTIONS FOR THE FIRST EXAMINATIONS OF ENGINEERS FOR CERTIFICATES OF COMPETENCY.

TO ENGINEER EXAMINERS.

Examiners will require all candidates to fill up a form, Exn. 15*b*., of which a copy is enclosed, and they will forward the same to the Government along with the report of the examination.

The arithmetical questions for engineers and the *vivâ voce* examinations for all candidates will be continued as heretofore, and failure in the elementary questions will be treated as failure in arithmetic.

The numbers of the questions for each examination will be selected by the examiners, and they are not to be communicated to the candidate until his examination commences.

Exn. 15b.

Port	Class for which examined
Date	Candidate's name

A. Where and how long did you serve in works at the making or at the repairing of engines, and in what capacities?

B. How long have you served as fireman or trimmer?

C. How long have you served in the engine-room at sea, and in what capacities?

D. With what descriptions of engines have you served at sea—Paddle, or screw, or both; jet condensing, surface condensing, or non-condensing engines; compounds, trunks, inverted cylinders, or horizontal engines? What size were the engines?

E. With what description of boilers have you served at sea—Rectangular or cylindrical, wet-bottomed or dry-bottomed, multitubular, sectional or flue boilers?

F. What engine defects have come under your notice at sea, what caused these defects, and how were they remedied? Give the names of the steamers for verification.

G. What boiler defects have come under your notice at sea, what caused these defects, and how were they remedied? Give the names of the steamers for verification.

For the questions to be answered on the following pages, *see* the book of Elementary Questions. The questions need not be written: only the answers to them.

ELEMENTARY QUESTIONS.

1.

What parts of an engine are generally made of wrought-iron?

2.

What parts of an engine are generally made of cast-iron?

3.

For what parts of an engine is steel sometimes used?

4.

What parts of an engine are generally made of brass or gun-metal?

5.

Where is "white metal" sometimes used? On account of what property possessed by it is it adopted? What objection is there to its more general use?

6.

For what parts is Muntz metal sometimes used? Is it malleable? For what properties is it valued?

7.

What difference is there in the composition of cast-iron, of wrought-iron, and of steel?

8.

How can cast-iron, wrought-iron, and steel be distinguished from each other?

9.

What are the different properties of cast-iron, of wrought-iron, and of steel?

10.

What is meant by the terms "breaking stress," "proof stress," "safe-working stress"?

11.

What is the cohesive strength or breaking stress of good ordinary wrought-iron?

12.

Tempering steel: how is it done, and in what order do the colours come?

13.

What is case-hardening?

14.

Which of the common metals or alloys can be forged, and which of them are brittle or "short"?

15.

What is meant by "welding?" Which of the common metals can be welded?

16.

The expansion of metals by heat: give examples of this in the engine and in the boiler.

17.

In the construction of cylindrical marine boilers, for what parts have the plates to be worked hot? When the material is steel, what precautionary treatment of these plates is afterwards necessary?

18.

What is double riveting? In what parts of cylindrical marine boilers is double riveting employed? In which of the shell seams is it most necessary?

19.

What is "caulking," and how are seams prepared for caulking?

20.

Describe the different ways of fastening the ends of the main stays of a boiler. What are the merits of, or objections to, the different plans?

21.

What strain per square inch is allowed on boiler stays?

22.

Describe a riveted stay, and state where such stays are commonly used.

23.

Where are thin plates to be looked for in a boiler as it wears, and how is the thinness to be detected?

24.

How are boiler tubes fixed? What are "stay tubes," and how are they secured?

25.

Where is it generally that boiler tubes leak? How is this defect repaired? What are the causes of this leaking?

26.

What are the causes of cracked tube plates? Where are the cracks situated? How are they repaired?

27.

What is the difference between a "dry uptake" and a "wet uptake"? Which requires most repair? Why? Where have you seen a wet uptake?

28.

What is a superheater? What is its construction? What valves are on it? There is sometimes a gauge glass on it; what is that for?

29.

What parts of a marine tubular boiler are first injured by shortness of water?

30.

Where are angle irons sometimes used in the construction of a boiler, and where are flanged plates used?

31.

Priming: to what causes is it attributed? What means are applied to prevent it? What evils may be produced by it?

32.

Funnel draught: what makes it? What checks it?

33.

Flame is sometimes seen at the top of the funnel: what causes this appearance? Is it beneficial or is it detrimental? Why so?

34.

A blast pipe: what is its construction? Where is it placed? For what is it used?

35.

How many bottom blow-off cocks are generally fitted to each boiler, and why are they so fitted?

36.

Blow-off cocks are sometimes fitted with a spanner guard: for what purpose is this? Describe how the guard is formed?

37.

Test cocks or water-guage cocks: where are they placed? At what heights? Must the cocks themselves be at those heights? What provision is made for cleaning these cocks? Should they ever become choked? When there are no test cocks, how is the height of the water ascertained?

38.

What is a dead-weight safety valve? Of what are the rubbing surfaces formed? How is a lock-up valve arranged to admit of lifting it or of turning it round, and to prevent adding to the weight?

39.

About what area of safety valve is now required by the Board of Trade? What area was formerly required, and on what ground has that been altered? What is the effect of suddenly opening a safety valve when steam is up? To about what extent do safety valves rise when blowing off without being eased by hand?

40.

Spring-loaded safety valves: what advantages have they that are not possessed by dead-weight valves? What are the disadvantages as compared with dead-weight valves?

41.

Of what pieces does a glass water-gauge mounting consit? How does it act? Where is it placed? At what height? Is it liable to derangement? How is its working tested?

42.

Glass water-gauges have sometimes pipe connections top and bottom? What is the object of this arrangement? Should there be cocks at the extremities of these pipes?

43.

Describe a Bourdon's steam-gauge. Some gauges have an inverted syphon pipe below them: what is its use?

44.

Why is a small cock sometimes put on the pipe leading to a steam-gauge? Where should it be placed, and what error might be made by omitting to use it?

45.

Do steam-gauges indicate the total pressure of the steam, or only a portion of that pressure? What is the pressure measured from?

46.

What is meant by the salting of the boiler? How is this prevented? What is the density of ordinary sea water? How is the density ascertained? What is the difference between the formation of scale and the salting of the boiler? What is the maximum density at which boilers should be worked at sea?

47.

Scum cocks and pipes: how are they arranged? Where are they placed? At what height in the boiler? When are they used? When must they be shut? Neglect of these cocks lead to what dangers?

48.

Scale: of what does it consist? Where is it most objectionable? How is it removed? How is its formation prevented? What evil effects are produced by it?

49.

What is a salinometer? Of what does it consist? How does it act? How is it graduated? Can it be used at any temperature indiscriminately?

50.

What harm may be done through the check valve of one of a set of boilers being defective while under way? How would you work to avoid this harm?

51.

How is the leak from a split tube stopped in a boiler at sea? Describe the operation.

52.

What is the use of dampers? Where are they fitted? When should they be used?

53.

When there are no dampers fitted, what is used instead? What evil to the boiler is sometimes attributed to this? When the heating surfaces are clean, does this occur?

54.

Describe the piston of a steam cylinder, with its different rings and their uses. There are generally round pieces let in flush on one side of a piston: what are they? How are these pieces fixed?

55.

Cylinder drain cocks: what is their use? There is sometimes a valve upon each cock: what purpose does it serve?

56.

Cylinder escape valves: of what do they consist? How protected? How regulated? When are they most needed? To what danger do they expose the engineer? What precaution is sometimes used to obviate this danger?

57.

What is a compound engine? What different kinds are there for screw steamers, in respect to the number and arrangement of their cranks and cylinders? What is a triple expansion engine?

58.

What is link motion? What are some of its advantages? In modern engines for the screw propeller, when there is no link motion, what takes its place?

59.

What is a separate expansion valve? Why is it not fitted to all engines? What effect has an expansion valve upon the starting and upon the reversing of the engine?

60.

What arrangement is applied to reduce the friction of a slide valve? To what is the friction due?

61.

Describe a loose eccentric: how does it act? In what engines is the loose eccentric still employed?

62.

What is the travel of the eccentric rod? How is it measured on the eccentric? What is the travel of the slide valve when the link motion is in mid gear and the engine still moving?

63.

What are "double-beat valves"? Why are they not generally used for safety valves? Are they ever used instead of the slide valve? What objections are there to their use?

64.

What is a circulating pump? Is it always worked by the main engine? Give an example from your last steamer of the three water temperatures generally noted by careful engineers.

65.

An air valve is sometimes fitted to a circulating reciprocating pump; what purpose does it serve?

66.

What is the difference between a bucket air-pump, a piston air-pump, and a plunger air-pump?

67.

Whether are double-acting air-pumps made with plungers, with pistons, or with buckets?

68.

What is an air-pump trunk? When is it necessary? How is it attached to the bucket?

69.

What class of air-pump requires both foot and delivery valves, and in what other class can either of these valves be in some cases dispensed with?

70.

When under way, when the air-pump bucket is at the top of its stroke, at what height is the water in the condenser?

71.

With a surface condenser and a single acting air-pump what is the effect of a leaky foot valve, and what is the effect of a leaky bucket when there is also a foot valve?

72.

Air-pump pet cock or valve: where is it placed? How does it act? What is its object? Does it in every case reduce the effective capacity of the pump? Is it equally applicable to double acting pumps?

73.

At what temperature is the hot well worked? What is the effect of higher temperatures? What is the effect of lower temperatures? What limits the lowness of temperature? Has a very low temperature any disadvantages?

74.

Bilge injection with common condensers: what are the fittings required? When is it used? What precautions are necessary in using it?

75.

When surface condensers are used, what takes the place of the bilge injection? To what is the connection made? How is its valve formed? Why is this necessary?

76.

What are the practical guides to the proper amount of opening of the inlet valve for the circulating pump?

77.

Feed-pump pet cock or valve: where is it placed? What is its use? How does it act? Is it always a necessary fitting?

78.

What are some of the ways of fastening the ends of surface condenser tubes? About what size and about what thickness are condenser tubes? What parts of a surface condenser are made of brass?

79.

What is a blow-through valve or cock? To what is it attached? There is sometimes a valve that when opened admits steam from the side valve casing to the exhaust port: what is its use? To which cylinder is it fitted?

80.

What is a snifting valve? What is its use? Where is it placed? Can it be placed too high? Can it be placed too low? At what height should it be placed? Was there one in your last steamer; if so, where was it? Why are snifting valves generally omitted now?

81.

What connections are generally fitted to the donkey-pump, and to what services can it be applied?

82.

When the engines are stopped with steam up, what are to be shut and what are to be opened?

83.

How is an engine heated up before starting? What precautionary examinations are made before starting?

84.

What is an interceptor or catch-water? Where is it fixed; what is its construction; how does it act and what attention does it require?

85.

Describe an air-pump bucket, with its valve or valves and its packing. Of what are the valves generally made?

86.

Of what materials are air-pump rods made? Why so?

87.

What is the racing of the engine? When does it occur? What danger attaches to it? What is done to prevent it?

88.

What are marine governors? What is their general construction? How do they act?

89.

What is meant by the "pitch" of a screw propeller? How is it measured?

90.

Explain the difference between a "right-hand" and a "left-hand" propeller, and state how each of them revolves.

91.

What is the slip of a screw propeller? How is its amount expressed in figures?

92.

Which of the valves about engines and boilers have to be worked by hand, which of them work self-actingly, and which are worked by the motion of the engine?

93.

Why is soda sometimes put into a boiler, and how is it put in while under weigh? What is the kind of soda used?

94.

Tallow cups for cylinders were sometimes made with two small cocks, or with only one small cock, or with one large hollow plug cock, or with one small cock and a valve; which of these is suitable for a high-pressure cylinder, and which for the cylinder of a condensing engine? Describe how the cup with only one small cock is used. What is now generally used instead of these? How has this change come about?

95.

Does a cylinder escape valve, self-acting, allow all the water to escape; if not, how much is left in the cylinder?

96.

What is a "steam lubricator" (sometimes called an impermeator)? Explain its action; to what part of the engine is it connected; whether will throwing cold water over it make it work faster or slower? Describe the one used in your last steamer.

97.

A common paddle wheel: of what is the centre made? Of what are the arms formed? What is the form of the bolts which attach the floats to the arms? How are the arms attached to the centres?

98.

Why have some paddle wheels one or more cast-iron floats in each wheel? With what engines are these most required? At what part of the circumference are they placed?

99.

Why are paddle wheel floats sometimes made of different breadths in the same wheel? With what description of engine is this most needed? Where are the broad floats placed and where are the narrow floats placed in the circumference of the wheel?

100.

What difference is there between a radial paddle wheel and one with feathering floats? What is the object of feathering floats? Are all the eccentric rods attached in the same way, and are they all of the same form?

101.

Whereabout is the centre of the eccentric of a paddle wheel with feathering floats placed? In that case are the feathering levers on the striking face or on the back of the float? When the paddle shaft has an outer bearing, how is the eccentric made?

102.

Of what materials are the working surfaces of a paddle wheel with feathering floats? Are they all lubricated? With what?

103.

What is a "disconnecting paddle engine"? At what place is the disconnecting effected? How is it accomplished? In which of the cranks of a disconnecting engine are the crank pins fixed?

104.

Whether is the link motion valve gear or the loose eccentric generally used for disconnecting paddle engine? For what steamers are disconnecting paddle engines frequently employed?

105.

What are expansion joints? Where are they necessary? What attention do they require? Of what should the working surfaces be made?

106.

What omission in the construction of expansion joints may lead to a serious accident when steam is first applied? How is this prevented in the construction of a steam trunnion pipe for an oscillating engine?

107.

Describe an oil cup with a syphon worsted. How is the worsted arranged? How is it cleaned? How far down the tube does it extend?

108.

Describe a thrust bearing; which of the surfaces wears? Why are there sometimes a number of oil tubes for one thrust bearing?

109.

What parts of a screw shaft are generally covered with brass? Why is this necessary? About what thickness is the brass?

110.

What is the stern tube or screw shaft pipe? Why is a pipe of such a length required? Of what is it made? How is it fixed at each end?

111.

What is *lignum vitæ* bearing? How is the wood fitted? Where is such a bearing generally used?

112.

How is a screw propeller fixed on the shaft? What means are used to prevent its getting loose at sea?

113.

Where are sluice valves placed? What large sluice valve is there in almost all screw steamers? From what position should this valve be worked? Why so? What attention should it receive?

114.

With a condensing engine what valves or cocks are on the skin of the ship in the engine-room and in the stokehole?

115.

What are the necessary fittings of a marine boiler?

116.

With a surface condensing engine what cocks or valves are open sometime before the engine is started so as to be ready for starting whenever the order is given?

117.

What is a steam jacket? What cocks are on it? In what engines are jackets most generally used? Do they require to be felted?

118.

What parts of an engine or its fittings should be felted or otherwise protected from radiation?

119.

What are the small cylinders sometimes fitted on the slide valve casing cover of vertical engines? Explain their action. To what are they connected by a pipe? Why so?

120.

Name the principal pipes in connection with the engines and boilers of a steamer, and state to what the ends of these pipes are connected.

121.

Through what cocks or valves, pipes and chambers does the water pass on its way from the sea inlet rose plate to the water space of the boiler with a jet condenser?

122.

Through what cocks or valves, pipes and chambers does the circulating water of a surface condenser pass?

123.

Through what cocks or valves, pipes and chambers does the steam pass from the boiler until it is in the form of water in the hot well?

124.

Name the pieces of the engine through which the pressure of the steam is transmitted from the piston to the screw propeller. Name them in the order in which they act.

125.

What is an air vessel? How does it act? At what parts of an engine or of its fittings are air vessels generally applied?

126.

What is the construction of a mud box? Where should mud boxes be placed? Why are they necessary? How should the space be divided by the rose plate, and why?

127.

What is a trunk engine? When used in a horizontal engine for a right-hand screw propeller, at which side of the vessel should the cylinders be placed? Why so?

128.

What is an oscillating engine? For what steamers are oscillating engines generally adopted? Why? How is the steam conveyed to and from the side valve casing?

129.

Of what parts does the valve motion gear of an oscillating engine consist?

130.

For what have geared engines sometimes been used? Of what were the cogs of the large wheel made?

131.

At what part of a screw steamer is the pressure that propels it applied to the hull?

132.

At what part of a paddle steamer is the pressure that propels it applied to the hull?

133.

About how much fuel per indicated horse-power per hour is required by modern steam engines, common, compound and triple expansion?

134.

What is the explanation of the economy of the surface condenser?

135.

What is the construction of a surface condenser? Of what are its tubes made? How are they fixed? How are they kept tight? What is done with a split tube?

136.

Where do surface condensers foul? How are they cleaned?

137.

What non-conducting substances are employed to prevent radiation, and how are they applied?

138.

In the construction of smoke-box doors and of dry uptakes, what provision is made to lessen the amount of radiation ?

139.

How can the formation of black smoke be prevented ? Describe smoke-preventing apparatus.

140.

What is meant by "circulation" in a boiler, and what are the results of defective circulation ?

141.

What means are sometimes adopted to improve the circulation in a boiler ?

142.

By what arrangement is the circulation promoted in a "haystack" boiler ?

143.

Describe a ship's side air-pump discharge valve ; in what respects does it sometimes differ from a common stop valve; and what attention does it require ?

144.

What is the construction of a feed escape valve, to what is its discharge connected, and how is its loading regulated ?

145.

When there is no feed escape valve, what is the arrangement of the feed valves or cocks ?

146.

What is the measure of a horse-power ? How is indicated horse-power ascertained ?

147.

Has "nominal horse-power" a fixed meaning ? What is the use of this expression ? What is generally taken as the measure of one horse-power nominal ?

148.

What is "back pressure" in a cylinder ? About how much is it in each of the cylinders in your last steamer ? Is excessive cushioning ever a trouble under certain conditions in modern engines ? Say when and why and in which cylinder this occurs.

149.

What is meant by "speed of piston" ? About how much is the speed of piston in modern marine engines ?

150.

What is "atmospheric pressure" ? What is its average amount ? What instrument tells this amount ?

151.

What is "gross pressure" or "absolute pressure" ? What pressure is it that is shown by the steam-gauge ?

152.

What is meant by "cutting off" steam ? How is it done ? What part of the valve regulates the cut off ?

153.

What is a piston slide valve ? Describe its construction. Why are such frequently employed in place of the common slide valve ? What is a great drawback to the use of these valves ?

154.

What fixes the time of closing the exhaust ? After the exhaust is closed and before the port opens for steam, what becomes of the steam that is in the cylinder ?

155.

What is the "lead" of the valve ? What is its object ? About what amount is it ?

156.

What is the "cover" or "lap" of the valve ? What is its object ? About what proportion of the stroke of the valve is it made ?

157.

What is the "exhaust cover" of a slide valve ? What is its effect upon cushioning and upon exhaust ?

158.

What is "minus cover" or "minus lap" on the exhaust ? What is its effect upon the exhaust and upon cushioning ?

159.

What is "cushioning" or "compression" in a steam cylinder ? How is it affected by the amount of cover or of minus cover there may be upon the exhaust ? How is it affected by the exhaust pressure ?

160.

What is "mean effective pressure" ? How is its amount ascertained ?

161.

What is a dial vacuum gauge? What is its construction? For what is it used? About what amount should it show when the engine is working all right? What effect has the variations it indicates on the performance of the engine?

162.

Does the vacuum gauge enable you to tell what pressure there is in the condenser, or must you have recourse also to the barometer to arrive at that? How would you ascertain the actual amount of back pressure there is in the condenser?

163.

What is a barometer? What is its construction? Is a barometer sometimes used instead of a vacuum gauge? In what respect does the weather barometer differ from the vacuum gauge barometer?

164.

The common vacuum gauge and the common steam-gauge, in which of them are the graduations marked from atmospheric pressure? Does either of them tell what is the true actual pressure in the boiler or in the condenser?

165.

Do steam and vacuum gauges vary with the variations of the weather barometer? When the weather barometer varies from 29 to 31, how much will the vacuum gauge vary, and how will that affect the working of the engine? Why so?

166.

Vacuum is generally stated as so many inches. What is meant by, say, 20 inches vacuum? Wha does that tell us about the absolute pressure of the vapour then in the condenser?

167.

From what depth will a pump draw water? Is there any limit? Why?

168.

What is vacuum? Can vacuum move a piston? When the temperature of the water in the condenser is 212°, what is the greatest degree of vacuum there can then be in the condenser?

169.

What is a thermometer, its construction? What is the property of matter that is the principle of its construction? What temperatures are regularly noted by careful engineers?

170.

What is the temperature of (1) melting ice, (2) of boiling water, (3) of steam about 60 lbs. pressure by the steam-gauge, (4) of steam about 100 lbs., and (5) of strain about 150 lbs., also (6) of smoke in the funnel, and (7) of water in the hot well?

171.

What is meant by the "conduction" of heat? Give examples of it in the boiler and in the engine.

172.

What is meant by the "convection" of heat? Give examples of it in the boiler and in the engine.

173.

What is meant by "radiation" of heat? Give examples of it in the boiler and in the engine.

174.

Which is convection, which is radiation, and which is conduction in the following cases: (1) Heat from the glowing fuel to the furnace crown; (2) Heat passing from one side of the furnace crown plate to the other; (3) Heat passing from the steam pipes in the engine-room; (4) The heat of evaporation?

175.

What are the effective heating surfaces of a marine boiler? What is an objection to vertical heating surfaces?

176.

What parts of a marine engine are exposed to danger when the temperature is below freezing point?

177.

What precautions are necessary in cold climates when the temperature is below freezing point?

178.

State as many ways as you can by which a boiler might not get its full feed; that is, a boiler or one of a set of boilers, gets short of water, although the feed valve is open its proper amount; to what causes might this be due?

179.

Of what are furnace bars generally made? About what thickness are they at top? About what space is between them? Whether are the bars put further apart for Newcastle coal or for Welsh coal?

180.

Which burns faster, New Castle coal or Welsh coal? Which is the flaming coal? Which makes most smoke?

181.

About how many tons of steam coal will be burnt per day in our furnaces, each 3' 0" wide, and of about the usual length? On what grounds do you say so?

182.

About how many tons of steam coal will be burnt per day with good compound engines to drive an ordinary steamer of 40 feet beam 10 knots an hour by steam alone? On what grounds do you say so? What percentage more coal would be required to propel the same steamer 1 knot faster?

183.

About how many tons of steam coal will be burnt per day with a good compound engine, surface condensers, the low pressure cylinder 70 inches diameter, doing average work? On what grounds do you say so?

184.

A pair of inverted cylinder direct acting engines, there is a liner half an inch thick between the ahead eccentric rod and the eccentric strap, in over-hauling the engine this piece is lost and forgotten; what difference will its omission make in the working of the engine, on the admission, on the cut off, and on the exhaust of the steam? Which will take place earlier, and which later, distinguishing between the up stroke and the down stroke?

185.

A pair of inverted cylinder direct acting engines driving a right-hand screw; on which of the cross-head guide bars is the pressure greatest in the up stroke, and on which in the down stroke?

186.

A screw propeller is gtting locse, it has a little play on the shaft, sideways on the key or feather; how will this show in the engine-room?

187.

How would you prove whether the centre line of the trunnions of an oscillating cylinder be fair with the centre line of the main shaft?

188.

How can the fairness of a line of screw shafting be tested without lifting the shafts?

189.

Where are steel forgings generally used in marine engines?

190.

What is the composition of nickel-steel? Where is it sometimes used in engines and boilers?

191.

How is forced draught generated on board ship and supplied to boiler-furnaces? Is the air heated before delivery? If so, how?

192.

What is "induced" draught? Compare the merits of "forced" and of "induced" draughts?

193.

How is the intensity of the draught measured? What is the usual pressure employed in the mercantile marine?

194.

An explosive gas is liberated from bunker coal. Usually in well ventilated bunkers this gas escapes into the atmosphere without doing harm. In ill-ventilated bunkers the gas after mixing with a certain proportion of common air has been known to explode when a naked light has been brought in contact with it. What is the composition of the gas? Where is it found, in bunkers, tween decks, pockets, and coal shoots? How may it be got rid of as soon as it evolves from the coal? How many cubic feet of air to one of the gas forms a violent explosive mixture?

195.

A lighted lamp or candle has sometimes been lowered into an apparently empty paraffin tank and produced an explosion resulting in injury to the person holding the light. What did the tank probably contain, and what produced the explosion?

196.

In vessels carrying coal cargoes it has been observed that, generally speaking, the gas which escapes from the body of the coal is found more abundantly at the forward end of the hold than at the after end. Why should this be so?

197.

In recently opened ballast tanks, double-bottoms, and boilers, a light lowered into either has sometimes been extinguished. What would, in all probability, cause this?

198.

In double-bottom steamers where does the bilge water lie, and where are the roses of the bilge pipes fitted?

199.

What is the advantage of a large rose over a small one?

200.

Why, especially in vessels carrying cargoes liable to shift, should engine bilge suctions be fitted to both wings of the bilge?

201.

In a heavily listed vessel, why is it difficult to keep steam?

202.

If the engine bilge pumps get choked and water accumulates in the stokehold bilges, what effect does the water have upon the bilge boards and stokehold plates, when the ship is rolling violently?

203.

In a triple-expansion engine, what spare gear do you consider necessary in the case of a foreign-going ship? Also, what stores would you provide for a voyage to New Zealand?

204.

What means are sometimes provided for temporarily coupling together the broken parts of, say, a tunnel-shaft? Describe the fitting?

205.

Does the pressure on the thrust-collars vary with the horse-power, or with the speed of the ship, or how?

206.

If the holding-down bolts of a thrust-bearing should become slack, what effect would it have upon the working of the engines?

207.

In an engine with three cranks, which of the three is subject to the greatest torsional stress (1) in going ahead, (2) in going astern?

208.

Is it usual to make the crank shaft of a triple or quadruple expansion engine in one piece? And is the diameter of the shaft uniform end to end? Give your reasons for the practice which obtains?

209.

In a "built" crank shaft how are are the webs rigidly secured to the pins and to the body of shaft?

210.

There are various descriptions of donkey engines in use on board ship for pumping purposes. Some pumps are fitted with escape-valves, some are not. Why should this be?

211.

Explain the function of an air-vessel fitted to a feed pump. Make rough hand sketches of (1) satisfactory vessel, (2) an unsatisfactory vessel, where, say, the air-spring has been destroyed by carelessness, or has never been properly provided?

212.

Should cocks or escape-valves be fitted to air-vessels? Why, or why not?

213.

Where, by preference, should the escape valve of a feed pump be placed? Why?

214.

Scum cocks are sometimes fitted to boiler shells at a height convenient for engineers to manipulate when standing in the stokehold; the scum pipes in such cases are led upward, inside the boiler, to a little above the combustion chamber tops. What danger may arise from this arrangement?

215.

Cocks for testing the water level of boilers are sometimes fitted, within reach of the engineer who is standing in the stokehold. These may have internal pipes leading upward and terminating at various levels. Under what circumstances may these become misleading?

216.

Why should the pipe which leads from the bottom of the water-gauge column to the bottom of the boiler-front, or back, be covered with non-conducting material? Why also should it never have lengthy horizontal bends?

217.

In your own experience, how frequently is this pipe removed and cleared?

218.

Why, even with the best of water-gauges, is it advisable to occasionally use the drain-cock?

219.

Steam loops have sometimes been inadvertently made in the length of piping leading from the top of the water-gauge column to the top of the boiler. Roughly sketch such a loop and explain the danger arising from its existence?

220.

Describe your method of throughly testing the water-gauge system to satisfy yourself that all the cocks and pipes are clear. Your answer can be written on a supplementary sheet of foolscap, which the examiner will hand you. Hand sketches, mere lines indicating pipes and circles indicating cocks, should be made. Identify the cocks and pipes by letters or numerals.

221.

Describe the construction of a water-tube boiler, mentioning the type selected?

222.

In a water-tube boiler, how is an economiser fitted, and what is its duty?

223.

How is the water-gauge fitted? Are glass-gauges used?

224.

The pressure of the steam in water-tube boilers is sometimes greater than at the engines. Why is this, and what percentage above the engine pressure does it amount to? How is this difference of pressure maintained?

225.

Describe any automatic method of feeding water-tube boilers. Of what material are the tubes made?

226.

Describe the construction of any steam turbine you are acquainted with, which is used on board ship. How is the expansion of steam effected? How many propeller shafts are employed, and how many propellers?

227.

Is the same power available to go astern as to go ahead?

228.

Of what material are the propellers made?

229.

How many pounds of coal per indicated horse-power per hour are burnt with this type of engine? Name the type of boiler in use?

230.

Describe the construction of a feed water-heater and give the name of its manufacturer.

231.

Describe any well-known ash-ejector.

232.

Describe any well-known independent feed pumps.

233.

Are independent feed pumps automatic in their action; Explain the action.

234.

What advantage, if any, have independent feed pumps over feed pumps worked by the main engines?

235.

To about what temperature is the feed water raised by passing through a feed-heater?

236.

What fittings are usually placed on a feed-heater? Why are they necessary?

237.

Describe the construction of a feed filter, enumerating its valves and cocks.

238.

How can the filter be cleaned? and what ingredients are generally removed when cleaning takes place?

239.

What is the intercepting material made of? How is it fitted?

240.

Describe an evaporator, and mention the type?

241.

What fittings are necessary with evaporators?

242.

How is the brine got rid of?

243.

How may the coils be cleaned?

244.

What is a dynamo? Describe its various parts? For what is it used?

245.

In what respect does an electric motor differ from a dynamo? Where are electric motors sometime used on board ship?

246.

Describe a system of electric lighting employed on board ship?

247.

How is the position of a fault in the circuit discovered?

248.

What is "sparking," and may it under some circumstances (naming them) be a danger

249.

What is "short-circuiting," and to what evil may it give rise?

250.

What means are employed to prevent any part of the circuit becoming over heated?

251.

Describe the features of an arc lamp.

252.

Describe the construction of a glow-lamp.

253.

What is the usual candle-power of the small glow-lamps in general use on board ship?

254.

Define the following terms :—Amperè, volt, ohm, watt. What is the measure of an electrical horse-power?

255.

Explain the uses of switches, brushes, commutators, cutouts field-magnets, armatures and resistance-coils.

256.

Why is it desirable to fit a dynamo in a cool place on board ship?

257.

What undesirable effect will ultimately occur to an electric wire, whose sectional area is constantly diminishing, say, through corrosion?

258.

What danger might arise from leading electric wire through coal bunkers?

259.

Is it better to lead electric wires, above or below side-scuttles? Why?

260.

What instruments are used on board ship to ascertain the strength of an electric current?

261.

Many ocean-going steamers are fitted with hydraulic cranes, &c. From where do they obtain their power? How is the hydraulic pressure kept at a relatively constant amount?

262.

Is any difficulty experienced in working hydraulic cranes in frosty weather? If so, why?

263.

Describe any steam steering gear you are acquainted with?

264.

When the helm is put hard over and the ship is going full speed ahead, what prevents the rudder returning to the amidship position?

265.

In the case of a steamship under way, does the officer, or man manipulating the steam steering wheel overcome any resistance exerted by the rudder?

266.

Explain clearly what is being done by a helmsman manipulating the wheel of a steam steering engine?

267.

Is there any difference between the amount of horse-power required to put a helm hard over, in a given time, when the vessel is going full speed ahead, and when she is going full speed astren? This question refers to a case of a steamer fitted with one rudder only, and demands more complete answer than merely "yes" or "no."

268.

What precautions should be taken before removing a manhole-door from a steam-boiler and why are these precautions necessary? In the absence of such precautions what casualties might occur?

269.

Describe the chief features of the engine-governor fitted to a steamer you have served in. Describe its action. Give the maker's name and name of ship.

NOTE.—The following six questions refer to oil-motors, fitted to launches which carry passengers :—

270.

Name the principal parts of an oil motor, and briefly state their functions. Give the name of the makers of the motor.

271.

What kind of oil is usually employed in oil motors? What is its flashpoint? What its specific gravity? What its calorific power? What precautions are taken in its storage to guard the public against casualty by fire or explosion?

272.

How many cylinders are generally used in oil motors? What kind of pistons are fitted? How frequently (measured in revolutions) is explosion per cylinder effected? How is explosion in the cylinder carried out?

273.

Describe how an oil motor is started. If starting prove difficult, where would you chiefly look for defects? How is piston speed modified? How is the speed of vessel verified? How is reversing effected?

274.

Before examining an oil motor with a naked light, what steps should be taken for safety's sake?

275.

How frequently should an oil motor, working 12 hours a day, be opened up for examination, cleaned and its parts readjusted? What difficulty arises when the internal parts become foul with carbonized oil?

NOTE.—Questions isolated from their context should be read in the light of the context. Thus the "sparking" referred to in question 248 relates to the sparking in an electric lighting circuit on board ship. *See* question 246.

APPENDIX B.

TESTIMONIAL.

I hereby certify that has served with me in the engine-room of as serang or principal tindal for a period of during which time he has discharged his duties to my entire satisfaction.

I consider that he fully understands the working of an engine, and has sufficient tact, presence of mind, and energy to look after and manage the working of the engines of a river steamer having engines of 30 nominal horse-power or upwards, but of less than 80 nominal horse-power.

Date *Signed.*

No. and description of certificate.

ANY engineer giving a testimonial in this form should be very careful in doing so, as the document may materially influence the applicant's eligibility as a candidate.

APPENDIX C.

Examination in rough working drawing for an Engineer's Certificate of Competency.

1. The regulations of the Local Government in regard to the qualifications of a candidate for an engineer's certificate of competency are—

He must be able to make rough working drawings of the different parts of the engines and boilers.

He must be able to state the general proportions borne by the principal parts of the machinery to each other.

2. In accordance with these clauses, a candidate for an engineer's certificate is required to make a rough working drawing of the parts specified. A mechanic who has been some years in charge of marine engines and boilers ought by this time to have familiarly in his mind the general construction of at least one set of engines and boilers, say that set he was last with. Fine drawing is not expected, and in the proportions of the parts a wide margin will be allowed; absurd dimensions will be failure in practical knowledge.

3. The drawing must, however, be practically a working drawing, giving a sufficient number of views to show the parts fully—sections, plans, or elevations—just as the candidate would require to be supplied to him if he had to make the parts to the design of another person.

4. A clear hand sketch showing the construction completely, and fully dimensioned, will be accepted if the candidate prefers this alternative.

5. A portion only of the parts specified may be accepted in place of the whole, if that portion is sufficient to show that the candidate has a good practical idea of the construction of the parts, and a fair notion of their general proportions or dimensions.

6. Candidates are hereby cautioned not to put on paper what they have not fully considered, and deliberately intend to be understood, as their statement of what they know about the construction of any part required.

7. The statements given in by a candidate may be in themselves, apparently, of little importance, but, as sample material from which the state of the candidate's knowledge of engines and boilers is to be inferred, every detail which is glaringly inconsistent with a sound knowledge of the use of the part, or in which an essential consideration has evidently been overlooked, is an important element in the description which the candidate is giving of his own qualifications.

8. The candidate is advised not to begin more than he can clearly finish in the time allowed. An important object in this part of the examination is to ascertain whether the candidate can be trusted to mark all necessary dimensions upon a sketch or a drawing. The test of this is, practically, the making of the part from the sketch without having to supply additional dimensions, and without measuring the drawing. To prove this ability the candidate must fully dimension the parts shown in his sketch or drawing, notwithstanding that the parts may be correctly drawn to scale. A drawing is fully dimensioned when no part of it is left to the option of the party who is to work to the drawing.

9. To prevent misunderstanding, however, when the candidate has been led into showing more of the details than he has time fully to finish, he should name, in the statement on the other side, the particular parts which he has fully dimensioned.

10. All dimensions should have lines and darts, to indicate distinctly the points between which the dimensions are given.

11. Beware of writing cross dimensions upon centre lines, or upon longitudinal dimension lines. This is not an order, but a recommendation.

12. The candidate is not expected to design anything; he has merely to sketch or draw a something with which he is expected to be already familiar.

13. Pencil in nothing after half-past 3: all the dimensions, the figures, and the darts must be inked in; employ the remaining time in examining the drawing and in inking in any figures which may have been before overlooked, and in checking the dimensions.

14. Make sure that you will have sufficient room on the drawing sheet to show all the necessary views. You can have another sheet of drawing paper if necessary. All the paper used must be forwarded with the drawing.

15. Fill in and sign the following statement:—

(*Specimen.*)

Subject for examination in rough working drawing.

(Read the foregoing general instructions.)

A common slide valve with its spindle. Show also an outline section of the parts at the cylinder face. Show the provision for connecting the side valve to the spindle.

The candidate is requested to fill up the following, and to attach this paper to his drawing:—

Statement by the candidate.

The accompanying drawing, made by me this day, without referring to any document, and without the assistance of any person, is intended by me to be sufficient for the new construction of the parts above described to fit the places of similar parts which are to be removed. The construction is similar to what I have been with in the _____ steamer ____________________, but the dimensions may be different.

The diameter of the cylinder is ____________________

CALCUTTA COLLECTORATE.

EXCISE NOTIFICATION.

IT is hereby notified for the information and guidance of those whom it may concern that applications for the renewal of the following classes of licenses for the year 1910-11 should be filed before the undersigned by the second week of March 1910. A separate application should be made for the renewal of each separate license and each such application should bear a court-fee stamp of one anna:—

1. Wholesale licenses (for the sale of foreign liquor).
2. Bottle retail licenses (for the sale of foreign liquor by the bottle only).
3. Combined licenses (for the sale of foreign liquor both wholesale and retail).
4. Hotel, Restaurant, Bar and Late-closing licenses.
5. Steamer licenses, Dining car licenses and Railway refreshment-room licenses.
6. Medicated wine licenses (for the sale of imported medicated wines).
7. Wholesale, Retail and Storage licenses for the sale and storage of methylated spirits.
8. Cocaine, Novocaine and Poppy-head licenses.
9. Cocaine licenses for Charitable Dispensaries and Hospitals not under Government supervision.

10. Druggists' permits for the sale of opium and its preparations and morphia.
11. Siddhi permits for the sale of siddhi for *bonâ fide* medical preparations.
12. Distillery and Brewery licenses.
13. Ganja and Siddhi Golah licenses.
14. Still licenses (at the Russa Distillery).
15. Compounding and blending licenses (for foreign liquor only).
16. Botling licenses (for foreign liquor only).

2. The following license fees have been newly prescribed under the provision of Bengal Act V of 1909 and should be paid annually in advance in one instalment :—

	Per year. Rs.
(*a*) Wholesale methylated spirit licenses	50
(*b*) Retail methylated spirit licenses (authorizing sale up to 6 bottles at a time)	5
(*c*) Storage licenses for methylated spirits (authorising the possession of more than 6 bottles at a time)	2

Municipal and Local.

NOTIFICATIONS.

No. 472San.—The 2nd March 1910.—It is hereby notified for general information that the Lieutenant-Governor intends, in exercise of the powers conferred on him by section 1 of the Bengal Vaccination Act, V of 1880, to extend the provisions of the said Act to the Dhulian Municipal area, in the district of Murshidabad, as defined by Government Notification No. 640M., dated the 1st April 1909, unless good reasons are shown to the contrary within six weeks from the date of publication of this notification within the said Municipality.

Murshidabad.

No. 527M.—The 4th March 1910.—It is hereby notified that, under section 27 of the Bengal Municipal Act, III of 1884, the Lieutenant-Governor is pleased to appoint Dr. E. A. Houseman to be a Commissioner of the Bally Municipality, in the district of Howrah, *vice* Dr. A. H. Pollock, resigned.

Howrah.

No. 549M.—The 5th March, 1910.—In exercise of the power conferred by sub-section (*1*) of section 567 of the Calcutta Municipal Act, 1899 (Bengal Act III of 1899), the Lieutenant-Governor is pleased to make the following rules as to the construction, maintenance and regulation of privies and urinals and appurtenances thereof, in amendment of Schedule XVI to that Act:—

Calcutta.

I. *For rule 1 in Schedule XVI substitute the following:—*

Regulation of site of service privies.

1. (*1*) No service privy exceeding eleven feet in height shall be placed in the space required by this Act to be left at the back of a building.

(*2*) No service privy situated in, or adjacent to, a building shall be placed at a distance of less than six feet from—

(*i*) any public building, or

(*ii*) any building which is, or is likely to be, used as a dwelling-place or as a place in which any person is, or is intended to be, employed in any manufacture, trade or business.

(*3*) No service privy shall be placed in a masonry building situated in a street which has been sewered and has an adequate unfiltered water-supply.

(*4*) Every service privy shall be detached from the inhabited portion of a building.

II. *To rule 6 add the following:—*

(*5*) The floor of every connected privy in which the opening of the pan is placed on the level of the floor shall have a fall or inclination towards the pan of at least half an inch to the foot.

III. *For rules 9 to 11 substitute the following:—*

Ventilation of privies water-closets and urinals in, or adjacent, to buildings.

9. Every privy, water-closet and urinal situated in, or adjacent to, a building must have an opening, of not less than three square feet in area, in one of the walls of the privy, water-closet or urinal, as near the top of the wall as may be practicable and communicating directly with the open air.

Service privies to be provided with a movable receptable for sewage.

10. (*1*) Every service privy must be provided with a movable receptacle for sewage.

(*2*) The following provisions shall have effect with regard to such privies and receptacles, that is to say,—

(*a*) the space beneath the platform of the privy must be of such dimensions as to admit of a movable receptacle for sewage, of a capacity not exceeding two cubic feet, being placed and fitted beneath the platform in such manner and position as will effectually prevent the deposit, otherwise than in such receptacle, of any sewage falling or thrown through the aperture of the platform;

(*b*) the privy must be so constructed as to afford adequate access to the said space for the purposes of cleansing such space and of placing therein, and removing therefrom, a proper receptacle for sewage;

(*c*) the said receptacle must be water-tight, and must be made of metal, well tarred earthenware or glazed stoneware, and must be of such construction and shape as will admit of its being easily removed and emptied of its contents;

(*d*) the door for the insertion and removal of the receptacle must be made so as to completely cover the aperture.

Masonry wall for water-closets, connected privies and urinals.

11. Every water-closet, connected privy and urinal situated in a building must be separated by a masonry wall from kitchens, habitable rooms and rooms in which any person is, or is intended to be, employed in any manufacture, trade or business.

IV. *To rule 12 add the following:—*

(*5*) Every urinal must be provided with adequate flushing arrangements to the satisfaction of the Chairman.

Pan for connected privies and water-closets.

V. *After rule 12 insert the following:—*

12A. Every connected privy and water-closet must be provided with a pan of such form and dimensions as may be approved by the Chairman.

Prohibition of containers and D traps.

VI. *For rule 14 substitute the following:—*

14. No "container" or other similar fitting shall be placed under the pan of a connected privy, water-closet or urinal; and no trap of the kind known as a "D trap" shall be used with any such privy, closet or urinal.

No. 543M.—The 5th March, 1910.—In exercise of the power conferred by sub-section (*1*) of section 567 of the Calcutta Municipal Act, 1899 (Bengal Act III of 1899), the Lieutenant-Governor is pleased to make the following rules to regulate the use of sites for the erection of buildings, and the erection and re-erection of buildings, in amendment of Schedule XVII to that Act:—

Calcutta.

I. *For rule 1 substitute the following:—*

Conditions as to use of building sites.

1. No piece of land shall be used as a site for the erection of a building,—

(*1*) if the building is to abut on a street, unless the site is of such a shape that the face of the building can be made parallel to the line of the street, or as nearly parallel to the said line as the General Committee may consider practicable; and

(*2*) if the site is within thirty feet of a tank, unless the owner satisfies the Engineer that he will take such order as will prevent any risk of the domestic drainage of the building passing into the tank; and

(*3*) if the site is a filled-up tank, or has been filled up with, or used for depositing, rubbish, offensive matter or sewage, unless the Chairman has examined the site and granted a certificate to the effect that it is, from sanitary and engineering points of view, fit to be built upon; and

(*4*) if the building to be erected is a public building, a dwelling-house or a hut intended for human habitation, unless the site is certified by the Chairman to be dry and well drained, or to be capable of being well drained.

1A. Any person who intends to erect any building upon a site on which a building has been previously erected, whether before or after the commencement of this Act, may, before commencing to erect his intended building, cause to be prepared plans showing the extent of the previously existing building in its several parts (or, in the event of such building having been taken down before the commencement of this Act, or having been accidentally destroyed, the best plans available under all the circumstances of the case), and may cause such plans to be submitted to the Chairman who shall (if reasonably satisfied with the evidence of their accuracy) certify the same under his hand; and such certificate shall be taken to be conclusive evidence of the correctness of the plans.

Certificate as to correctness of plans of a previously existing building.

II. *For rule 2 substitute the following :—*

2. (*1*) If a building is situated at the side of a street, no portion of the building, except open or balustraded parapets not more than four feet high, shall intersect any of a series of imaginary lines drawn across the street at an angle of forty-five degrees with the plane of the ground, such lines being drawn from the street alignment on the side of the street which is the more remote from the building in question, from a height of two feet above the centre of the street:

Height.

Provided as follows :—

(*i*) where the said street is joined at an angle by another street facing the building, the height of the building, measured from two feet above the centre of the street and excluding parapets as aforesaid, shall not in any case exceed the width of the street in which it is situated, together with the width of any set-back which may be made, *plus* half the width of the street facing it;

(*ii*) nothing herein contained shall affect the erection of a building abutting upon, or situated at the side of, a street of not less than sixty feet in width, if such building does not exceed eighty feet in height; and

(*iii*) no building exceeding eighty feet in height shall be erected without the special permission of the General Committee.

Explanation.—If a building be placed at the edge of the street, its height, measured from two feet above the centre of the street and excluding parapets as aforesaid, must not exceed the average width of the street facing the site; but, if the building or one or more of its storeys be set back, the height of the building may be increased, subject to the condition that no portion of the building, after the height is increased, intersects any of the aforesaid lines.

(*2*) In the case of any building which is re-erected in a street in existence at the commencement of this Act, the angle at which the lines referred to in sub-rule (*1*) are to be drawn shall be fifty-six-and-a-half degrees instead of forty-five degrees:

Provided as follows :—

(*i*) the height allowed under this sub-rule shall in no case be more than thirty-six feet; and

(*ii*) nothing contained in this sub-rule shall authorise the re-erection of any building so as to make it higher than any building which at the commencement of this Act was standing in the same place.

(*3*) Notwithstanding anything contained in sub-rule (*1*) or sub-rule (*2*), the Corporation may, by order published in the Calcutta Gazette, declare that, in any street specified in the order, the erection of two-storeyed buildings not exceeding twenty-eight feet in height, excluding two feet for the plinth and excluding open or balustraded parapets not more than four feet high, will be permitted without complying with the requirements of those sub-rules.

(*4*) If a building is situated on a corner plot, so as to abut upon more than one street, the height of the building shall be regulated by the wider of such streets so far as it will abut or abuts upon such wider street, and also so far as it will abut or abuts upon the narrower of such streets to a distance of fifty-five feet from the wider street:

Provided that, if the narrower street does not exceed eight feet in width, the height of the building shall be regulated by the wider street, so far as it will abut or abuts upon the narrower street.

(*5*) Notwithstanding anything contained in sub-rule (*1*), (*2*) or (*4*),—

(*a*) a building of not more than one storey and not exceeding fourteen feet in height above the centre of the street, and

(*b*) if the owner, by a free gift of a portion of his land to the Corporation, makes the street not less than twelve feet wide in front of his site, then a two-storeyed building not more than twenty-eight feet high,

may be erected without complying with the requirements of those sub-rules.

III. *Cancel rule 6.*

IV. *For rule 8 substitute the following :—*

Plinth.

8. The plinth of a masonry building must be at least two feet above the level of the centre of the nearest street:

Provided that the plinth of stables and cow-sheds need not be more than one foot above such level.

V. *For rule 10 substitute the following :—*

Outer walls.

10. The outer walls of a masonry building must be constructed of brick or some similar hard and incombustible substance.

VI. *For rule 12 (1) substitute the following :—*

12. (*1*) Every wall of a masonry building must have a damp-proof course at the level of the ground-floor.

VII. Re-number rule 13 as 13 (*1*), and to that rule add the following :—

(*2*) Nothing contained in sub-rule (*1*) shall prevent the placing of a second storey upon an existing masonry building the walls of which are certified by the Engineer to the Corporation to be fit to bear the load proposed to be put upon them.

VIII. *For rules 17 and 18 substitute the following :—*

Proportion of site for dwelling house which may be built upon.

17. The total area covered by all the buildings (including verandahs) on any site used for a dwelling-house shall not exceed two-thirds, or, in localities where the erection of only detached buildings is allowed, one-third, of the total area of the site;

and the area not so covered shall belong exclusively to the dwelling-house and shall be retained as part and parcel thereof.

18. In localities where the erection of only detached buildings is allowed,—

Dwelling-houses and out-offices, in localities where the erection of only detached buildings is allowed.

(a) the dwelling-house may be placed in any part of the site, but not so as to extend beyond any building line prescribed under section 356; and

(b) servants' houses, stables and other out-offices within the area of the site shall not exceed fifteen feet in height or twenty feet in depth, and shall not be placed on more than two sides of the dwelling-house or within twenty-four feet of the dwelling-house.

IX. *Cancel rule 19.*

X. *For rule 20 substitute the following:—*

20. Every room in a domestic building which is intended to be used as an inhabited room—

Size and ventilation of inhabited rooms.

(a) must be in every part not less than ten feet in height, measured from the floor to the under-side of the beam on which the roof rests;

(b) must have a clear superficial area of not less than eighty square feet; and

(c) must be provided, for purposes of ventilation, with doors or windows opening directly into the external air, or into a verandah, and having an aggregate opening of not less than one-fourth of the superficial area of that side or one of those sides of the room which faces or face an open space.

20A. Every room in a domestic building which is intended to be used as an inhabited room, and which is constructed over a stable, cattle-shed or cow-house, must be separated from the stable, cattle-shed or cow-house by a floor of concrete or other impermeable material.

Floor of inhabited room over stable, cattle-shed or cow-house.

20B. In every domestic building constructed or adapted to be occupied in flats, the principal common staircase must be adequately ventilated upon every storey.

Ventilation of staircase.

20C. The ground-floor of every domestic building must be covered throughout, at the height of the plinth, with some impermeable material approved by the Chairman, unless such floor be supported on beams and has a free air space beneath it.

Ground-floor

XI. *For rules 22 to 26 substitute the following:—*

22. (1) Except in localities where the erection of only detached buildings is allowed, there must be in the rear of every domestic building an open space extending along the entire width of the building and belonging exclusively to the building, unless the back of the building abuts on an open square or the like, of not less than twenty feet in width, which is dedicated to public use and is consequently not likely to be built upon:

Open space in rear of building, regulating the rear height.

Provided that, if the back of such building abuts on a public street which is less than twenty feet in width, an owner, on giving up to the Corporation a sufficient portion of his land to make such public street not less than twenty feet wide, may be allowed to build on the very edge of his remaining land, without being required to leave any such open space.

(2) The minimum distance across such space from every part of the building to the boundary line of the land or building immediately opposite such part shall be ten feet:

Provided that, in the case of any building in which there are both an outer and an inner court-yard, a minimum distance of six feet shall be permitted.

(3) No portion of the building, excluding open or balustraded parapets not more than four feet high, shall intersect any of a series of imaginary lines drawn across such space at an angle of sixty-three and-a-half degrees with the plane of the ground, such lines being drawn from the line limiting the width of such space at the side thereof which is the more remote from the building, at the level of the plinth of the building:

Provided that, in the case of two-storeyed buildings, the angle shall be increased from sixty-three-and-a-half to sixty-eight degrees.

Explanation.—If the building be placed at the edge of such space, its height, measured from the level of the plinth and excluding parapets as aforesaid, must not exceed twice, or, in the case of a two-storeyed building, two-and-a-half times, the width of the space; but, if the building or one or more of its storeys be set back, the height of the building may be increased, subject to the condition that no part of the building after the height is increased intersects any of the aforesaid lines.

(4) For the purposes of this rule, the rear of a building shall be deemed to be that face which is furthest from any street at the side of which the building is situated:

Provided that, where a building is situated at the side of more than one street, the rear of the building shall, unless the Chairman otherwise directs, be deemed to be that face which is furthest from the widest of such streets.

Relaxation of rule 22 in case of irregular site.

23. If any person desires to erect a domestic building, in a street laid out before the commencement of this Act, upon a site which is of such a nature that it is impracticable to provide an open space in the rear of the building of the dimensions prescribed by rule 22, the General Committee may relax the provisions of that rule:

Provided that—

(a) such open space shall be left as the General Committee may consider practicable, having regard to all the circumstances of the case, and

(b) not more than two-thirds of the total area of the site shall be occupied by masonry buildings or verandahs.

Open space at sides of building.

24. (1) Except in localities where the erection of only detached buildings is allowed, if either side of a domestic building is not attached to the adjacent building, and if such side does not abut on an open square or the like which is at least six feet in width, and which is dedicated to public use and is consequently not likely to be built upon,

there must be between the buildings an open space extending along the entire length of such side and belonging exclusively to the said domestic building:

Provided that attachment to the adjacent building shall not be allowed if either of the buildings is a dwelling-house.

(2) The minimum distance across such space from every part of the said domestic building to the boundary line of the land or building immediately opposite such part shall be—

(a) six feet, if there is a building next to such boundary line, or

(b) four feet, if there is an open space on the other side of such boundary line.

Interior court-yards and outward open spaces to be raised and kept open.

25. (1) Every interior court-yard and every open space prescribed by rule 22 or rule 24 must be raised at least one foot above the level of the centre of the nearest street, so as to admit of easy drainage into the street.

(2) Every interior court-yard and every such open space must be open to the sky throughout its entire area, and must be kept accessible for the purpose of cleansing; and no structure shall be erected within or above, or so as to project over, the same:

Provided that a one-seated or two-seated connected privy not exceeding forty square feet in floor area, exclusive of walls, may be erected in the open space of ten or more feet left under sub-rule (2) of rule 22, and that such privy may have as many storeys over it as there are storeys in the house to which it belongs, each of such storeys being connected with the main building by a gangway or bridge of not more than five feet outside width.

Paving of court-yards and open spaces.

25A. All court-yards in a domestic building, and all other open spaces therein not exceeding six feet in width, shall be paved with some impermeable substance and drained to the satisfaction of the Chairman.

Prohibition of rooms over or under privies.

26. No room other than a bath-room or privy shall be placed over a privy in a domestic building, and no privy shall be placed in a domestic building under any room other than a bath-room or privy.

XII. *For rules 28 and 29 substitute the following:—*

Height of buildings of the warehouse class.

28. (1) In applying sub-rule (1) of rule 2 to any building of the warehouse class situated in a locality in which the erection of buildings of the warehouse class is allowed by declaration under sub-clause (iii) of clause (c) of section 367, the said sub-rule shall be read as if fifty-six-and-a-half degrees were substituted for forty-five degrees.

(2) Sub-rule (2) of rule 2 shall not apply to any such building.

Open spaces for buildings of the warehouse class.

29. The provisions of rules 22, 24 and 25 as to domestic buildings shall have effect in the case of buildings of the warehouse class which are not situated in a locality in which the erection of buildings of the warehouse class is allowed by declaration under sub-clause (iii) of clause (c) of section 367.

Floors of certain buildings of the warehouse class.

29A. The floor of every building of the warehouse class intended to be used for the manufacture or storage of articles for human consumption shall be constructed of some impermeable material approved by the Chairman.

XIII. *For rules 30 and 31 substitute the following:—*

30. (*1*) Every application for approval of a site for a masonry building must be written on a printed form (to be supplied by the Chairman free of charge), and must state the position of the site, the number assigned to it in the assessment-book, its dimensions, and such other particulars as may be prescribed by the General Committee.

Application for approval of site for erection or re-erection of masonry building.

(*2*) The site-plan sent with such an application must be drawn to a scale of not less than one-fiftieth of an inch to a foot, must be sent in triplicate, and must show—

(*a*) the boundaries of the site and of any contiguous land belonging to the owner thereof;

(*b*) the position of the site in relation to neighbouring streets;

(*c*) the name of the street in which the building is proposed to be situated;

(*d*) the position of the building, and of all other buildings (if any) which the applicant intends to erect upon his contiguous land referred to in clause (*a*), in relation to—

(*i*) the boundaries of the site,

(*ii*) all adjacent streets, buildings and premises within a distance of forty feet of the site and of the contiguous land (if any) referred to in clause (*a*), and

(*iii*) (if there is no street within a distance of forty feet of the site) some existing street or some street projected under section 356 or sanctioned under section 358;

(*e*) the means of access from the street to the building, and to all other buildings (if any) which the applicant intends to erect upon his contiguous land referred to in clause (*a*);

(*f*) the position and approximate height of all other buildings within forty feet of the site;

(*g*) the position, form and dimensions of privies, urinals, drains, cesspools, stables, cattle-sheds, cow-houses, wells and other appurtenances of the building;

(*h*) free passage or way in front of the building;

(*j*) space to be left about the building to secure a free circulation of air, admission of light and access for scavenging purposes;

(*k*) the width of the street (if any) in front, and of the street (if any) at the rear, of the building; and

(*l*) such other particulars as may be prescribed by the General Committee.

31. (*1*) Every application for permission to erect or re-erect a masonry building must be written on a printed form (to be supplied by the Chairman free of charge), and must state the description of the building, its dimensions, and such other particulars as may be prescribed by the General Committee.

Application to be sent and particulars furnished by person intending to erect or re-erect a masonry building.

(*2*) The plan of the building and the elevations and sections accompanying such an application must be neatly and accurately drawn to a scale of not less than one-eighth of an inch to a foot, and must be sent in triplicate; and the said plan must show—

(*a*) the levels and width of the foundation of the building;

(*b*) the level of the lowest floor of the building; and

(*c*) the level of all court-yards and open spaces in the building or premises, and the plinth-level of buildings, with reference to the level at the centre of the nearest street.

(*3*) The specification accompanying such an application must comprise full information as to the following particulars, namely:—

(*v*) the purpose for which it is intended to use the building;

(vi) if the building is intended to be used as a dwelling-house for two or more families, or as a place for carrying on any trade or business in which more than twenty people may be employed, or as a place of public resort,—the means of ingress and egress; and

(vii) such other particulars as may be prescribed by the General Committee.

Explanation to clause (v).—If it is intended to use the building or any part thereof for any of the purposes specified in Schedule XVIII, or as a stable, cattle-shed or cow-house, the fact must be expressly stated.

XIV. *For rule 36 substitute the following:*—

Retention of plan, and submission of fresh application, after refusal to approve site or to permit execution of work.

36. When approval to a site for a masonry building, or permission to erect or re-erect a masonry building, is refused,—

(a) the Chairman may retain one copy of the site-plan or the plan of the building, as the case may be, and

(b) the applicant may at any time send to the Chairman a fresh application and fresh or modified documents under section 370, framed with the object of meeting the objections for which such approval or permission was refused.

XV. *For rules 37 to 42 substitute the following:*—

Continuous lines.

37. Huts in a bustee must be built in continuous lines, in accordance with an alignment to be prescribed by the General Committee, after hearing the objections (if any) of the owner of the bustee, and demarcated on the ground.

Bustee streets.

37A. *(1)* In prescribing an alignment under rule 37, in any bustee of which a standard plan has not been approved under this Act or any prior Act or under any rules made under this Act, the General Committee may leave, in such places as they think fit, a space of not more than twenty feet in width for a bustee street.

(2) Such bustee streets shall not ordinarily be more than two hundred feet apart, and no hut or portion of a hut shall be built upon or project over them.

Distance between eaves and alignment.

38. Where an alignment prescribed under rule 37 does not correspond with the alignment of a street in a bustee, or of a bustee street referred to in rule 37A, no hut shall be built so that the distance measured from its eave to such alignment is less than six feet.

Use of bustee streets and of spaces referred to in rule 38.

39. All bustee streets referred to in rule 37A, and all spaces referred to in rule 38, between a hut and an alignment, shall remain private property, subject to a right in the municipal authorities to send carts along them or otherwise make use of them for any of the purposes of this Act.

Building of huts in a bustee in court-yard formation.

40. Notwithstanding anything contained in rule 37, huts in a bustee may, with the special sanction of the General Committee, be built so as to form an open court-yard, comprising at least one-fourth of the whole area occupied by the huts and court-yard:

Provided that no portion of such huts shall be built upon a bustee street referred to in rule 37A.

Site of huts not in a bustee which form an open court-yard.

40A. Where huts other than huts in a bustee are built so as to form an open court-yard, the area of the court-yard shall not be less than one-fourth of the area occupied by the huts and court-yard.

Space.

41. There shall be between all huts a space of at least three feet, measured from eave to eave.

Distance of huts from metalled and sewered street.

42. Except with the sanction of the General Committee, no hut shall be placed at a greater distance than one hundred feet from the nearest part of a metalled and sewered street, unless there be a municipal or bustee drain at a distance of not more than twenty feet from the site.

XVI. *For rule 45 substitute the following:*—

Height.

45. No hut shall comprise more than two storeys, or shall exceed twenty feet in height, measured from the top of the plinth to the junction of the eaves and wall.

XVII. *After rule 46 insert the following :—*

46A. (*1*) The whole of at least one side of every room in a hut must either be an external wall or abut on an open court-yard or on a verandah. Rooms.

(*2*) Every room in a hut, which is intended to be used as an inhabited room,—

(*a*) shall be provided with a door-way of not less than fifteen square feet in area;

(*b*) shall have a superficial area of not less than eighty square feet; and

(*c*) shall have a height of not less than eight feet, measured from the top of the plinth to the junction of the wall with the roof.

46B. (*1*) The court-yard (if any) of a hut shall be so raised that the upper surface shall be one foot above the level of the nearest street or passage, and shall be drained into the nearest drain. Court yards.

(*2*) The width of such court-yard shall be not less than eight feet.

XVIII. *For the first thirty-four words of sub-rule (3) of rule 47 substitute the following :—*

(*3*) The site-plan sent with such an application must be drawn to a scale of not less than one-eighth of an inch to a foot, must be sent in triplicate, and must show—.

XIX. *For rule 49 substitute the following :—*

49. When permission to erect or re-erect a hut is refused,— Retention of plan, and submission of fresh application, after refusal of permission to erect or re-erect a hut.

(*a*) the Chairman may retain one copy of the plan, and

(*b*) the applicant may at any time send to the Chairman a fresh application and a fresh or modified plan under section 384, framed with the object of meeting the objections for which such permission was refused.

XX. *For the last four words of the proviso to rule 50 substitute the following —*
"in the same place."

No. 544M.—The 5th March, 1910.—The following draft of rules which it is proposed to make under sub-section (*1*) of section 567 of the Calcutta Municipal Act, 1899 (Ben. Act. III of 1899), is published for the information of persons likely to be affected thereby.

Calcutta.

2. The draft will be taken into consideration on the 21st April 1910, and any objections or suggestions received by the undersigned before that date will be duly considered.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below to the undermentioned estates situate in the district of Purnea, will be put up to sale at the Purnea Collectorate on Wednesday, the 23rd March 1910, corresponding to 27th Fagoon 1317 Fasli or 10th Chait 1317 Bengali.

The purchasers will be subject to the following conditions of sale :—

Conditions of Sale.

1st.—The estate to be sold to the highest bidder above the upset price, which will be fixed by the Collector at the time of sale. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity. The conditions regarding the payment of a land revenue fixed in perpetuity are not applicable to estates in temporarily-settled districts in which the land revenue should be fixed for the term of the current settlement and be subject to periodical revisions, on expiry of each settlement. In the case of an estate, situated in a permanently-settled area and yielding an annual rental of less than Re. 1, there should be no condition regarding payment of land revenue.

2nd.—The sale is subject to the existing leases and to the rights conferred by the settlement proceedings and by the laws in force; and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by the noon of the fifteenth day after the sale, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

Advertisement of Sale.

NOTICE is hereby given that, under rule 64 of order XXI of the Code of Civil Procedure, 1908, an order has been passed by this Court for the sale of the attached property mentioned in the annexed schedule in satisfaction of the claim of the decree-holder in the suit mentioned in the margin, amounting with costs and interest up to date of sale to the sum of Rs. 1,418-15-9.

Certificate case No. 256 of 1909-10 decided by the Certificate Officer of Bankura, in which the Secretary of State for India in Council was plaintiff and Rani Ananda Kumari Debi was defendant.

The sale will be by public auction, and the property will be put up for sale in the lots specified in the schedule. The sale will be of the property of the judgement-debtors above named as mentioned in the schedule below; and the liabilities and claims attaching to the said property, so far as they have been ascertained, are those specified in the schedule against each lot.

In the absence of any order of postponement, the sale will be held by the Certificate Officer of Bankura at the monthly sale commencing at 12 o'clock on the 21st March 1910, corresponding to 7th Chaitra 1316 B.S., at Bankura. In the event, however, of the debt above specified and of the costs of the sale being tendered or paid before the knocking down of any lot, the sale will be stopped.

At the sale the public generally are invited to bid, either personally or by duly authorized agent. No bid by, or on behalf of, the judgement-creditors above mentioned, however, will be accepted, nor will any sale to them be valid without the express permission of the Court previously given. The following are the further—

Conditions of sale.

1. The particulars specified in the schedule below have been stated to the best of the information of the Court, but the Court will not be answerable for any error, misstatement or omission in this proclamation.
2. The amount by which the biddings are to be increased shall be determined by the officer conducting the sale. In the event of any dispute arising as to the amount bid, or as to the bidder, the lot shall at once be again put up to auction.
3. The highest bidder shall be declared to be the purchaser of any lot, provided always that he is legally qualified to bid, and provided that it shall be in the discretion of the Court or officer holding the sale to decline acceptance of the highest bid when the price offered appears so clearly inadequate as to make it advisable to do so.
4. For reasons recorded, it shall be in the discretion of the officer conducting the sale to adjourn it subject always to the provisions of rule 69 of order XXI.
5. In the case of moveable property, the price of each lot shall be paid at the time of sale or as soon after as the officer holding the sale directs, and in default of payment, the property shall forthwith be again put up and resold.
6. In the case of immoveable property, the person declared to be the purchaser shall pay immediately after such declaration a deposit of 25 per cent. on the amount of his purchase-money to the officer conducting the sale, and in default of such deposit the property shall forthwith be put up again and resold.
7. The full amount of the purchase-money shall be paid by the purchaser before the Court closes on the fifteenth day after the sale of the property, exclusive of such day, or if the fifteenth day be a Sunday or other holiday, then on the first office day after the fifteenth day.
8. In default of payment of the balance of purchase-money within the period allowed, the property shall be resold after the issue of a fresh notification of sale. The deposit, after defraying the expenses of the sale, may, if the Court thinks fit, be forfeited to Government, and the defaulting purchaser shall forfeit all claim to the property or to any part of the sum for which it may be subsequently sold.

Given under my hand and the seal of the Court this 9th day of February 1910.

Number of lot.	Description of property to be sold, with the name of each owner where there are more judgement-debtors than one.	The revenue assessed upon the estate or part of the estate, if the property to be sold is an interest in an estate or part of an estate paying revenue to Government.	Detail of any incumbrances to which the property is liable.	Claims, if any, which have been put forward to the property and any other known particulars bearing on its nature and value.

PURSUANT to sections 320 of Act X of 1865 and 42 of Act XXVIII of 1866, all persons having claims against any of the above estates of the abovenamed deceased, to whose estates Letters of Administration with copies of their respective Wills annexed have been granted by the High Court of Judicature at Fort William in Bengal to Charles Henry Kesteven, are hereby required to send full particulars of their claims, a statement of their accounts and the nature of the securities (if any) held by them to me, the undersigned, as Solicitor to the said Charles Henry Kesteven on or before the 21st day of March 1910, after which date no claims will be admitted and the assets of the respective estates will be distributed.

Dated this 18th day of February 1910.

E. C. ESSON,

Solicitor to the said Charles Henry Kesteven.
Royal Insurance Buildings, Dalhousie Square,
Calcutta. (207—3—327)

In the matter of Indian Companies Act of 1882, and in the matter of the East India Stone Company, Limited.

AT an Extraordinary General Meeting of the Shareholders of the abovenamed Company held at No. 26, Dalhousie Square, Calcutta, on the 11th day of February 1910, the following Resolution was passed, and at a subsequent Extraordinary General Meeting of the Shareholders of the Company held at the same place on the 1st day of March 1910 the following Resolution was duly confirmed:—

"That the Company be wound up voluntarily; and that Mr. H. D. Wood of Calcutta be and is hereby appointed Liquidator for the purpose of such winding up."

HERBERT D. WOOD, Chairman.

Dated the 1st day of March 1910. (266—1—365)

The Kharsawan Gold Syndicate, Limited (in Liquidation.)

NOTICE is hereby given, in pursuance of section 186 of the Indian Companies Act, 1882, that a General Meeting of the Members of the abovenamed Company will be held at the Registered Office of the Company, No. 4, Fairlie Place, Calcutta, on Tuesday, the 12th day of April 1910, at noon, for the purpose of having an account laid before them showing the manner in which the winding up has been conducted and the property of the Company disposed of and of hearing any explanation that may be given by the Liquidator and also determining by an Extraordinary Resolution the manner in which the books, accounts and documents of the Company and of the Liquidator thereof shall be disposed of.

H. B. WHITTY, Liquidator.

4, Fairlie Place, Calcutta, 4th March 1910.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depôt, Calcutta,
or
the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

Acts of the Governor General's Council assented to by the Governor General.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Act of the Governor General of India in Council received the assent of the Governor General on the 4th March, 1910, and is hereby promulgated for general information:—

ACT NO. VI OF 1910.

An Act further to amend the Indian Stamp Act, 1899.

WHEREAS it is expedient further to amend the Indian Stamp Act, 1899; It is hereby enacted as follows:— II of 1899.

Short title.

1. This Act may be called the Indian Stamp (Amendment) Act, 1910.

Amendment of Act II 1899, section 8.

2. In section 8, sub-section (*1*), of the Indian Stamp Act, 1899 (hereinafter referred to as "the said Act"), for the words "eight annas per centum" the words "one per centum" shall be substituted.

Amendment of Act II, 1899, Schedule I.

3. In Schedule I of the said Act the following amendments shall be made, namely:—

(i) For Article No. 5 the following shall be substituted, namely:—

"5. AGREEMENT OR MEMORANDUM OF AN AGREEMENT—

(*a*) if relating to the sale of a bill of exchange:	Two annas.
(*b*) if relating to the sale of a Government security or share in an incorporated company or other body corporate;	Subject to a maximum of ten rupees, one anna for every Rs. 10,000 or part thereof of the value of the security or share.
(*c*) if not otherwise provided for.	Eight annas.

Exemptions.

Agreement or memorandum of agreement—

(*a*) for or relating to the sale of goods or merchandise exclusively, not being a NOTE OR MEMORANDUM chargeable under No. 43;

(*b*) made in the form of tenders to the Government of India for or relating to any loan;

(*c*) made under the European Vagrancy Act, 1874, section 17. IX of 1874

(ii) In Article No. 13, for clause (*b*) the following shall be substituted, namely :—

(*b*) where payable otherwise than on demand, but not more than one year after date or sight—		If drawn singly.	If drawn in set of two, for each part of the set.	If drawn in set of three, for each part of the set.

(iii) For Article No. 27 the following shall be substituted, namely :—

"27. DEBENTURE (whether a mortgage debenture or not), being a marketable security transferable—	
(*a*) by endorsement or by a separate instrument of transfer ;	The same duty as Bond (No. 15) for the same amount.
(*b*) by delivery . .	The same duty as a conveyance (No. 23) for a consideration equal to the face amount of the debenture.
Explanation.—The term 'Debenture' includes any interest coupons attached thereto, but the amount of such coupons shall not be included in estimating the duty.	
Exemption. A debenture issued by an incorporated company or other body corporate in terms of a registered mortgage-deed, duly stamped in respect of the full amount of debentures to be issued thereunder, whereby the company or body borrowing makes over, in whole or in part, their property to trustees for the benefit of the debenture-holders : provided that the debentures so issued are expressed to be issued in terms of the said mortgage-deed. See also BOND (No. 15) and Sections 8 and 55."	

(iv) For Article No. 43 the following shall be substituted, namely :—

"43. NOTE OR MEMORANDUM sent by a Broker or Agent to his principal intimating the purchase or sale on account of such principal—	
(*a*) of any goods exceeding in value twenty rupees ;	Two annas.
(*b*) of any stock or marketable security exceeding in value twenty rupees.	Subject to a maximum of ten rupees, one anna for every Rs. 10,000 or part thereof of the value of the stock or security."

(v) In Article No. 59, in the second column, for the words "Three-quarters of" the words "One and a half times", and in the *EXEMPTIONS*, for the word "three-quarters" each time it occurs the words "one and a half" shall be substituted.

(vi) In Article No. 62, in the second column, for the word "One-quarter", where it occurs opposite clauses (*a*) and (*b*), the word "One-half" shall be substituted.

LEGISLATIVE DEPARTMENT.

WE, the undersigned, Members of the Select Committee to which the Bill further to amend the Indian Stamp Act, 1899, was referred, have considered the Bill, and have now the honour to submit this our Report, with the Bill as amended by us annexed thereto.

2. *Clause 3* (i) has been altered so as to discriminate between stock exchange transactions and the class of transactions carried through by bill and exchange brokers. For the former a graduated scale of duty has been maintained, but the rates have been reduced, as the Committee consider that the rates originally proposed might hamper the free circulation of securities. For the latter class of transactions a fixed duty of two annas is proposed, as the operations are frequently conducted on a narrow margin.

3. *Clause 3* (ii) has been altered so as to retain the existing rates of duty for bills or notes of which the amount does not exceed Rs. 600. Small *hundis* and similar petty transactions will thus be exempted from the enhancement in duty.

4. *Clause 3* (iii) has been altered so as to distinguish between debentures which are transferable by delivery, and those which require an endorsement or separate deed of transfer. The latter are left at their present rate of duty, as they will be amenable, whenever they change hands, to the increased transfer duty under article 62. Debentures payable to bearer, however, will be subject to the higher rate originally proposed, as they escape transfer duty. This is on the analogy of the enhanced rate now proposed on securities issued under section 8 of the Act.

4. *A new clause 3* (iv) has been introduced, so as to bring the duty on brokers' notes ("bought and sold" notes) into line with the enhanced duties on agreements to sell (article 5). Some doubt has been expressed whether certain classes of transactions which it was intended to tax under article 5 could not be passed under article 43, and it is desirable to prevent possible evasion of the new duties.

5. The Bill has been published in the Gazette of India of the 26th February 1910.

6. We think that the Bill has not been so altered as to require re-publication, and we recommend that it be passed as now amended.

LEGISLATIVE DEPARTMENT.

The following Act of the Governor General of India in Council received the assent of the Governor General on the 4th March, 1910, and is hereby promulgated for general information :—

ACT NO. VII OF 1910.

An Act Further to amend the Court-fees Act, 1870.

WHEREAS it is expedient further to amend the Court-fees Act, 1870; It is hereby enacted as follows :— (VII of 1870.)

Short title.

1. This Act may be called the Court-fees (Amendment) Act, 1910.

Amendment of Act VII, 1870, Schedule I.

2. In Schedule I to the Court-fees Act, 1870, as amended by the Succession Certificate Act, 1889, the following amendments shall be made, namely :— (VII of 1889.)

(i) in article 11, for the entries in the second and third columns, the following shall be substituted, namely :—

When the amount or value of the property in respect of which the grant of probate or letters is made exceeds one thousand rupees, but does not exceed ten thousand rupees.	Two per centum on such amount or value.
When such amount or value exceeds ten thousand rupees, but does not exceed fifty thousand rupees.	Two and one-half per centum on such amount or value.
When such amount or value exceeds fifty thousand rupees.	Three per centum on such amount or value.
Provided that when, after the grant of a certificate under the Succession Certificate Act, 1889, or under the Regulation of the Bombay Code No. VIII of 1827, in respect of any property included in an estate, a grant of probate or letters of administration is made in respect of the same estate, the fee payable in respect of the latter grant shall be reduced by the amount of the fee paid in respect of the former grant.	

(ii) in article 12A, for the entries in the second and third columns, the following shall be substituted, namely :—

(1) As regards debts and securities.	The same fee as would be payable in respect of a certificate under the Succession Certificate Act, 1889, or in respect of an extension of such a certificate, as the case may be.

(2) As regards other property in respect of which the certificate is granted—	
When the amount or value of such property exceeds one thousand rupees, but does not exceed ten thousand rupees.	Two per centum on such amount or value.
When such amount or value exceeds ten thousand rupees, but does not exceed fifty thousand rupees.	Two and one-half per centum on such amount or value.
When such amount or value exceeds fifty thousand rupees.	Three per centum on such amount or value.

Exemption of certain probates, letters of administration and certificates.

3. Nothing in this Act shall apply to any probate, letters of administration or certificate in respect of which the fee payable under the law for the time being in force has been paid prior to the commencement of this Act, but which have not been issued.

LEGISLATIVE DEPARTMENT.

WE, the undersigned, Members of the Select Committee to which the Bill further to amend the Court-fees Act, 1870, was referred, have considered the Bill, and have now the honour to submit this our Report.

2. The Bill has been published in the Gazette of India of the 26th February 1910.

3. We have no alterations to suggest and we recommend that the Bill as introduced be passed.

LEGISLATIVE DEPARTMENT.

WE, the undersigned, Members of the Select Committee to which the Bill further to amend the Indian Tariff Act, 1894, was referred, have considered the Bill, and have now the honour to submit this our Report, with the Bill as amended by us annexed thereto.

2. The only alteration which we have made in the Bill as introduced is the restoratiou in the new Schedule of the provisions of the existing Schedule III as to the meth od of calculating duty on liquors.

3. The Bill has been published in the Gazette of India of the 26th February 1910.

4. We think that the measure has not been so altered as to require re-publication, and we recommend that it be passed as now amended.

The 3rd March 1910.

WE regret we are unable to sign the Report of the Committee, because we are not satisfied that the condition of the finances of the country is such as to necessitate the imposition of fresh taxation. We fear the need for such taxation has arisen owing to the fact that the revenue under several heads has been under-estimated. Notably has this been, we think, the case with opium-revenue. The Hon'ble Finance Member estimates that the average price per chest for the next financial year will be Rs. 1,750. Those, however, who are well acquainted with the conditions of opium trade, are strongly of opinion that, having regard to the circumstances of the Chinese market, Rs. 2,000 per chest will be a safe estimate. The latter figure means an increase of over 90 lakhs in the estimated revenue from opium.

In any case we are unable to agree to the proposed enhancement of the duty on silver, as also on petroleum. The increased duty on petroleum will obviously fall on the poorer classes of the country. The increased duty on silver—nearly 17 per cent. in place of the present 5 per cent.—will, by lowering the price of silver, seriously disorganise our trade with China, and will impose an additional burden on the mill industry of the country, which is just now passing through a time of great difficulty. The question of the future of silver in this country is a most important question which we think ought to be considered in all its aspects by a Commission of competent men before any action is taken in regard to it. The present proposal, moreover, comes at a most inopportune moment, because it really means a blow to the first great industry of the country after agriculture at a time when it is least able to bear it, and an advantage conferred on its foreign rivals which they will not be slow to use. We are of opinion that, if additional money is necessary, it will be a far less objectionable plan to put an extra import-duty on sugar, as also an export-duty on jute, of which we have a monopoly in the world. A countervailing excise may be levied on jute if it is imperative to safeguard the interests of free trade.

RESOLUTION ON THE SURVEY AND SETTLEMENT REPORTS FOR THE YEAR ENDING THE 30TH SEPTEMBER 1909.

REVENUE DEPARTMENT—LAND REVENUE.

Calcutta, the 3rd March 1910.

RESOLUTION—No. 981L. R.

READ—

The Survey and Settlement Reports for the year ending the 30th September 1909, with the remarks of the Board of Revenue thereon.

The programmes of both the survey and settlement departments were almost fully carried out.

2. On the 31st January 1909, the Bengal survey department was removed from the control of the Surveyor-General of India and came under the direct control of the Local Government, Major Crichton being the first Director of Surveys. The connection with Eastern Bengal was finally severed in the following March. The consequent re-arrangements involved considerable care and attention and added appreciably to the work of the Director. As a result of the transfer of all cadastral surveys to the settlement department the work of the department now includes traverse surveys, the relaying of boundaries, special surveys like that of the town and suburbs of Calcutta, and

the very important mapping work which is carried out in the Bengal Drawing Office. In addition, it is one of the functions of the Director of Surveys to inspect the cadastral work done by the settlement parties with the special object of ensuring a high standard of accuracy.

3. There was no topographical survey during the year under report. The outturn of traverse survey was 3,367 square miles as against 5,107 square miles in the previous year. The decrease was mainly due to the completion of the Sundarbans survey. The cost rates of this work per square mile were :—

District.		1907-08.	1908-09.
		Rs.	Rs.
Shahabad ...	...	37·3	34·6
Manbhum ...	...	41·6	31·7
Hazaribagh ...	...	...	33·5

These rates are satisfactorily low; and the work appears to have been done promptly and efficiently.

The survey in progress in Calcutta has given considerable trouble to the Director much of which could have been obviated by the timely provision of funds by the Calcutta Corporation.

In the Drawing Office very considerable improvements have been made. The outturn of work is increasing, and the quality is believed to be high, and these results are being obtained with due regard to economy.

4. The work of the settlement department lay in 16 districts, and, excluding 1,629 square miles of revision survey in Orissa, the area cadastrally surveyed during the year was 3,378 square miles against 4,477 square miles in the previous year. Records were finally published in respect of 4,234 square miles as against 4,931 square miles in 1907-08. Excluding revision work in Orissa, 3,667 square miles were finished during the year; and the total area for which a record-of-rights has been completed in Bengal, under the supervision of the Director of Land Records, is now 47,674 square miles, the average annual outturn during the last 23 years being 2,073 square miles.

5. The areas dealt with by the settlement department fall mainly into the following classes :—

(1) Temporarily-settled estates, where a settlement of rents is necessary in addition to the record-of-rights.

(2) Permanently-settled estates in the Sonthal Parganas where, besides the preparation of a record-of-rights, the rent of every tenant must be settled. This necessity arises from the fact that the zamindars are debarred, by section 3 of the Sonthal Parganas Rent Regulation, II of 1886, from changing the rents payable by headmen or raiyats except through the agency of Government.

(3) Permanently-settled tracts, where the work consists of the preparation of a record-of-rights and the decision of all agrarian disputes. In these areas the settlement of fair rents is made only on the application of landlords or tenants.

(4) The temporarily-settled portion of Orissa, in which the revision of the last cadastral survey and record-of-rights is being made in order to bring them up to date with a view to continuous maintenance. Here the settlement of fair rents is made only on the application of landlords and tenants (the land revenue having been fixed at the last settlement for thirty years). In portions of this area the continuous maintenance of the records is being tried as an experiment.

6. *Settlement of rents.*—In the Jalamutha and Majnamutha temporarily-settled estates, comprising an area of 510 square miles with 195,845 tenants, rents have so far been proposed for nearly all the tenancies, but many objections are pending. During the year under report, the settlement rent-roll was confirmed in respect of 23,253 tenants, the average enhancement on the former rental being 15·86 per cent.

In the Sonthal Parganas a settlement of rents was made in an area of 827 square miles. The rates now settled are very moderate. The extension of cultivation amounts to 15 per cent. The total of the rents settled is about 30 per cent. higher than that of the previous settlement in which heavy rent abatements were granted temporarily. The number of illegal and objectionable transfers disclosed during the year was very small, only 665 out of 3½ lakhs of acres having been found to have been sold and 621 mortgaged.

The following table shows the results of rent settlements in the Bihar districts by compromise under section 109C, and by regular proceedings under section 105, of the Bengal Tenancy Act:—

District.	Under section 109C.			Under section 105.			
	Number of tenants.	Rent according to landlord.	Rent settled by compromise.	Number of tenants.	Former rental.	New rental.	Enhancement per cent.
		Rs.	Rs.		Rs.	Rs.	
Patna ...	4,314	59,035	58,767		...	...	...
South Monghyr	34,980	4,79,640	4,46,364	9,710	1,46,007	1,63,280	11·8
South Bhagalpur	...	...	...	2,849	46,520	52,536	12·9

The extensive resort to section 109C, which has considerably improved the strained relations previously existing between landlord and tenant, is very satisfactory. Of the enhancements allowed under section 105 in South Bhagalpur and South Monghyr one-half or more were due to excess area and the remainder to the rise in prices.

7. A very important feature of the operations in South Bihar is the commutation of produce rents under section 40 of the Tenancy Act. No less than 1,957 such cases were disposed of in South Bhagalpur in 1907-08. In South Monghyr nearly 6,000 cases have so far been filed, of which more than 3,000 are still pending. In the district of Patna the question of produce rents and their commutation is causing much agitation, and the applications are likely to be very numerous. During the year 2,545 were received, of which 258 were disposed of. It was found necessary to appoint a temporary additional settlement officer to hear the numerous appeals from the orders passed in commutation cases. It appears that the expenditure on these cases considerably exceeds the court-fee receipts, and it may become necessary to consider the question of raising the present court-fee of 8 annas per tenancy.

8. There was no settlement of fair rents during the year in any of the Chota Nagpur districts. In Ranchi disputes about the incidence of rent, prædial conditions and free labour were far more numerous and difficult than in previous years. Proceedings were taken to prepare a record of landlords' privileged lands in Ranchi under section 119 of the new Act. In the tracts taken up in Singhbhum and Manbhum the question of the rights of *ghatwals* is of great importance, and is receiving the very careful attention of the settlement officer.

9. The cadastral survey in Bihar and Chota Nagpur progresses satisfactorily. The Director of Surveys examined the village maps of both areas in the field and during recess, and found them fully up to the requisite standard. In Shahabad the cost rate of cadastral survey and initial record-writing for the area completed, including recess work, amounted to Rs. 203 per square mile as against Rs. 206 in Patna. The number of plots averaged 1,470 in Shahabad and 1,714 in Patna; while the subdivision of proprietary interests was minute in both districts. In fact, a case is reported from Patna in which the recorded share of a proprietor of a revenue-paying estate represents 1-100th part of a square inch of land. In Manbhum the cost rate was Rs. 1,7-4 as compared with Rs. 105-3 in the previous year in the district of Singhbhum. The difference is accounted for by heavy initial expenditure, and a larger number of fields to the square mile, namely, 682 as against 394.

10. The progress of revision work in the districts of Cuttack and Balasore was more rapid than in the previous year, and the programme of the year was exceeded. The changes were numerous, and the raiyats, as usual, showed a keen interest in the proceedings, while the landlords displayed more appreciation than in previous years. Fair rents were settled under section 105 of the Bengal Tenancy Act mainly on applications filed by tenants in respect of new reclamation. On this ground the rents of 3,984 tenants in the district of Balasore were raised from Rs. 7,033 to Rs. 12,457, or by 77 per cent.

11. Experimental maintenance of the record, without legislation, was carried out in the sadar subdivision of Balasore, with an area of 963 square miles. It appears to have been received favourably by tenants and landlords alike. The work was, however, found more difficult than had been anticipated, and the proceedings proved that, in order to merit the presumption of accuracy, the records should be scrutinized much more elaborately than had been contemplated, and at a very considerable addition to the cost rate.

12. The utilization of cadastral maps and records-of-rights by courts and executive officers, has been rapidly extending. The present report makes it clear that they are now in much more general use.

13. The maintenance of records in Sambalpur went on satisfactorily, while the working of the offices for the registration of mutations at Bettiah, Hajipur and Mahnar continued to prove the futility of the voluntary system aimed at by the passing of the Land Records Maintenance Act of 1895. There was some slight improvement in the record of mutations and the inspection of rent-rolls in Government and Wards' estates, but there is still much room for improvement, especially in the latter class. The inspection and maintenance of boundary marks received more attention than in previous years.

14. The Lieutenant-Governor observes with satisfaction that the great majority of the officers employed on survey and settlement did their duty with zeal and industry. His acknowledgments are due in particular to Messrs. Murphy, Reid, Allanson and Taylor who held charge of the most important operations. The survey department was controlled by Major R. T. Crichton, C.I.E., and the settlement department by Mr. H. McPherson, I.C.S. The Lieutenant-Governor's thanks are due to these officers for the smoothness and efficiency with which the work of each department was carried out.

ORDER.—Ordered that this Resolution be published in the *Calcutta Gazette*, and that copies of it, with copies of the two reports and the Board's note, be submitted to the Government of India.

By order of the Lieutenant-Governor of Bengal,

F. W. DUKE,

Chief Secretary to the Govt. of Bengal.

SECOND FORECAST OF THE SPRING OILSEED CROPS OF BENGAL, 1909-10.

THE following is published for general information.

F. W. DUKE,
Chief Secy. to the Govt. of Bengal.

The 5th March 1910.

DEPARTMENT OF AGRICULTURE, BENGAL.

SECOND FORECAST OF THE SPRING OILSEED CROPS OF BENGAL, 1909-10.

[On an average of the five years ending 1907-08 the area under linseed and rape and mustard in the territory to which this forecast relates represents some 22·7 and 13·0 per cent., respectively, of the total area under these crops in British India.]

Explanatory.—This forecast deals with all kinds of oil-seed crops excepting sesamum for which four separate forecasts are issued.

Area sown.—The total area sown this year is reported to be 1,816,300 acres against 1,557,900 acres of last year. The increase is due to more favourable conditions during the sowing time.

Character of the season and condition of crops.—The oil-seed crops are most important in Bihar and in the Presidency and Chota Nagpur Divisions. The rainfall in September and October, though defective in most districts, was sufficient for sowings which began in normal time. Sowings were, however, retarded in parts of the Presidency Division owing to the heavy rainfall which accompanied the cyclone of the 17th October last. The rainfall in December and January was beneficial to the late crops, but the early crops that were ripe for harvest were damaged to some extent by the rain in January in parts of the Presidency and Orissa Divisions. Insects did some injury

in parts of Hooghly, Saran and Monghyr. Prospects of the crops are generally reported to be good in Bihar and fair in other parts of the Province.

According to the estimates of the district officers the outturn of the different kinds of oilseeds excepting *til* for the Province as a whole works out at 84 per cent. of the normal as against 60 per cent. estimated last year.

W. H. BUCHAN,
Offg. Director of Agriculture, Bengal.

SECOND FORECAST OF THE WHEAT CROP OF BENGAL FOR 1909-10.

THE following is published for general information.

F. W. DUKE,
Chief Secy. to the Govt. of Bengal.

The 5th March 1910.

DEPARTMENT OF AGRICULTURE, BENGAL.

SECOND FORECAST OF THE WHEAT CROP OF BENGAL FOR 1909-10.

[On an average of five years ending 1907-08, the area under wheat in the territory to which this forecast relates represents some 4·4 per cent. of the total area under wheat in India. The ratio of the irrigated wheat acreage to total wheat acreage, (a) in British India and (b) in the territory now reported on has, in the five years ending 1907-08, averaged (a) 38·7 per cent. and (b) 2·2 per cent. respectively.]

Character of the season.—Wheat is cultivated chiefly in Bihar. The less important districts are Nadia, Murshidabad and Hazaribagh. In September and October rainfall was general, though defective in most districts, and there was sufficient moisture in the soil for sowings, which began in the normal season. The rain received in December and January has been beneficial to the crop. The season has been favourable this year up to the present.

Area sown.—The total area sown with the crop is estimated at 1,412,700 acres against 1,255,200 acres last year. The increase is due mainly to favourable conditions during the period of sowing.

Outturn.—Of the important districts of Bihar, Gaya, Champaran and Muzaffarpur report a normal crop; Bhagalpur, Purnea, Darbhanga and Monghyr report 93 to 98 per cent. crop; Patna, Shahabad and Saran report crops of between 81 to 86 per cent. In the Sonthal Parganas as well as in Nadia, Murshidabad and Hazaribagh a crop of 65 to 75 per cent. of the normal is anticipated.

The outturn for the whole Province according to the District Officers' estimates works out to 92 per cent. of the normal.

W. H. BUCHAN,
Offg. Director of Agriculture, Bengal.

CALCUTTA;

The 24th February 1910.

The mean pressure, temperature, etc., are deduced from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. The rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.

DECLARATION.

No. 1274 J.—The 15th March 1910.—Whereas certain land was acquired by the Bengal Government, under the provisions of Act I of 1894 and Act XVIII of 1885, for a public purpose, viz., for the Gararia Siding off the Dhanbaid-Khatras Branch and portion of the Dhanbaid-Katras Branch of the East Indian Railway, and whereas coal mines are situate under the said land, and whereas Messrs. Tribhuban Das Howji and Company have given notice to the Government of Bengal, in accordance with the provisions of Act XVIII of 1885, that the said Company intend to work the seam known as No. 10 seam and whereas the mines have been inspected by the officer appointed by the Bengal Government for the purpose under section 5 (1) of Act XVIII of 1885, and whereas it appears to the Bengal Government that the working out of the coal of the mines underlying the said land is likely to cause damage to the surface of the said land and to the works constructed thereon, and whereas the said Messrs. Tribhuban Das Howji and Company have agreed not to work and get minerals underlying the land acquired for their siding, or underlying the land acquired for the branch or other lines with which the siding is connected or underlying the land of the branch or branches connecting the said siding with the main line, in such a manner as to injure or to endanger the safety of the undertaking or any part thereof, nor to claim any compensation for any restricted working:

Manbhum.

Now, therefore, the Lieutenant-Governor of Bengal is pleased to declare, under section 5, sub-section (*2*), clause (*b*), of the abovementioned Act, XVIII of 1885, that the working shall be carried on by the said Messrs. Tribhuban Das Howji and Company, in the manner and subject to the restrictions below specified, viz.—

(*a*) Galleries shall be driven only as shown by the red centre lines upon the plan. Each gallery shall be not more than 12 feet wide and 10 feet high, leaving 5 feet of coal next to the roof.

(*b*) Manholes not exceeding 6 feet in height and 3 feet in width by 4 feet in depth may be made where required by any rule made under the Indian Mines Act, 1901.

(*c*) Any inrush of water, quicksand or soft material shall be reported to the Chief Inspector of Mines without delay.

(*d*) The above restrictions apply to No. 10 seam only and to the area edged with pink on the plan, and Messrs. Tribhuban Das Howji and Company shall give notice under section 4 of the Land Acquisition (Mines) Act, 1885, of their intention to work any other seam under the above area or to work coal under any other area of acquired land, and that in all the above cases no further excavation shall be made in any of the galleries which already have been driven, the actual heights and widths of which have been carefully recorded on the plan marked L. A. M. A. No. 136, signed by the Chief Inspector of Mines.

The plan referred to may be seen in the office of the Chief Inspector of Mines in India by the parties concerned.

REMARKS.

(A) The increase in 1907-08 and the decrease in 1908-09 were due to refund of taxes and the abolition of audit and banking charges respectively.

(C) Out of the total of the year 1908-09, Rs. 4,039 was spent in purchasing equipment for the new hospital and dispensary. This may be treated as extraordinary expenditure.

(G) The entire amount of each of the three years, 1906-07, 1907-08 and 1908-09, represents advances and deposits.

No. 641M.—The 15th March 1910.—Whereas a Notification No. 13M., dated the 5th January 1910, was published at pages 3-4, Part IB of the *Calcutta Gazette* of the 12th idem, containing a plan submitted by the Commissioners of the Maniktala Municipality for lighting a portion of the said Municipality with gas, and whereas no valid objection has been raised to, and no alterations have been suggested in, the said plan within one month from the publication of a vernacular translation of the same within the limits of the said Municipality, it is hereby notified for general information that, in exercise of the power vested in the Local Government by section 308 of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), the Lieutenant-Governor sanctions the said plan which is reproduced below:—

24-Parganas.

1. The portion of the Municipality which it is proposed to light with gas lies within the following boundaries:—

North.—From the Municipal holding No. 72-12, Canal east road, towards east up to the Municipal holding No. 29, Baliaghatta main road.

South.—From the Municipal holding No. 1-10, Choulputty road, towards east up to the Municipal holding No. 111, Baliaghatta main road.

East.—From the Municipal holding No. 29, Baliaghatta main road, towards south up to the Municipal holding No. 111, Baliaghata main road.

West.—From the Municipal holding No. 72-12, Canal east road, towards south up to the Municipal holding No. 1-10, Choulputty road.

2. Twenty-two gas lamps will be installed within this portion of the Maniktala Municipality, viz., on the Baliaghata main road from its junction with the Choulputty road and Canal east road, up to its junction with Rashmoney Bazar road. It is estimated that the total cost for the installation will be Rs. 1,210, and that the cost of maintenance and lighting will be Rs. 1,320 per annum. The Municipal Commissioners have not entered into an agreement with any Company for the supply of gas.

3. The Lieutenant-Governor is further pleased to sanction, under clause (e) of section 86 of the said Act, the proposal of the Municipal Commissioners at a meeting to meet the charge to be incurred on account of lighting the aforesaid area by imposing an annual lighting rate of 3 per cent. on the annual value of holdings within the area to be lighted as defined in paragraph 1 of this notification. The income to be derived from the lighting-tax of the aforesaid area is estimated to be Rs. 1,117 per annum.

Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below to the undermentioned estates situate in the district of Purnea, will be put up to sale at the Purnea Collectorate on Wednesday, the 23rd March 1910, corresponding to 27th Fagoon 1317 Fasli or 10th Chait 1317 Bengali.

The purchasers will be subject to the following conditions of sale :—

Conditions of Sale.

1st.—The estate to be sold to the highest bidder above the upset price, which will be fixed by the Collector at the time of sale. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity. The conditions regarding the payment of a land revenue fixed in perpetuity are not applicable to estates in temporarily-settled districts in which the land revenue should be fixed for the term of the current settlement and be subject to periodical revisions, on expiry of each settlement. In the case of an estate, situated in a permanently-settled area and yielding an annual rental of less than Re. 1, there should be no condition regarding payment of land revenue.

2nd.—The sale is subject to the existing leases and to the rights conferred by the settlement proceedings and by the laws in force; and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by the noon of the fifteenth day after the sale, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

Advertisement of Sale.

NOTICE is hereby given that, under rule 64 of order XXI of the Code of Civil Procedure, 1908, an order has been passed by this Court for the sale of the attached property mentioned in the annexed schedule in satisfaction of the claim of the decree-holder in the suit mentioned in the margin, amounting with costs and interest up to date of sale to the sum of Rs. 1,413-15-9.

Certificate case No. 256 of 1909-10 decided by the Certificate Officer of Bankura, in which the Secretary of State for India in Council was plaintiff and Rani Ananda Kumari Debi was defendant.

The sale will be by public auction, and the property will be put up for sale in the lots specified in the schedule. The sale will be of the property of the judgement-debtors above named as mentioned in the schedule below; and the liabilities and claims attaching to the said property, so far as they have been ascertained, are those specified in the schedule against each lot.

In the absence of any order of postponement, the sale will be held by the Certificate Officer of Bankura at the monthly sale commencing at 12 o'clock on the 21st March 1910, corresponding to 7th Chaitra 1316 B.S., at Bankura. In the event, however, of the debt above specified and of the costs of the sale being tendered or paid before the knocking down of any lot, the sale will be stopped.

At the sale the public generally are invited to bid, either personally or by duly authorized agent. No bid by, or on behalf of, the judgement-creditors above mentioned, however, will be accepted, nor will any sale to them be valid without the express permission of the Court previously given. The following are the further—

Conditions of sale.

1. The particulars specified in the schedule below have been stated to the best of the information of the Court, but the Court will not be answerable for any error, misstatement or omission in this proclamation.
2. The amount by which the biddings are to be increased shall be determined by the officer conducting the sale. In the event of any dispute arising as to the amount bid, or as to the bidder, the lot shall at once be again put up to auction.
3. The highest bidder shall be declared to be the purchaser of any lot, provided always that he is legally qualified to bid, and provided that it shall be in the discretion of the Court or officer holding the sale to decline acceptance of the highest bid when the price offered appears so clearly inadequate as to make it advisable to do so.
4. For reasons recorded, it shall be in the discretion of the officer conducting the sale to adjourn it subject always to the provisions of rule 69 of order XXI.
5. In the case of moveable property, the price of each lot shall be paid at the time of sale or as soon after as the officer holding the sale directs, and in default of payment, the property shall forthwith be again put up and resold.
6. In the case of immoveable property, the person declared to be the purchaser shall pay immediately after such declaration a deposit of 25 per cent. on the amount of his purchase-money to the officer conducting the sale, and in default of such deposit the property shall forthwith be put up again and resold.
7. The full amount of the purchase-money shall be paid by the purchaser before the Court closes on the fifteenth day after the sale of the property, exclusive of such day, or if the fifteenth day be a Sunday or other holiday, then on the first office day after the fifteenth day.
8. In default of payment of the balance of purchase-money within the period allowed, the property shall be resold after the issue of a fresh notification of sale. The deposit, after defraying the expenses of the sale, may, if the Court thinks fit, be forfeited to Government, and the defaulting purchaser shall forfeit all claim to the property or to any part of the sum for which it may be subsequently sold.

Given under my hand and the seal of the Court this 9th day of February 1910.

LEGISLATIVE DEPT.,
BOOK DEPÔT BRANCH;
The 7th December, 1909.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge, Bengal Secretariat Book Depôt, Calcutta,

or

the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

The mean pressure, temperature, etc., are deduced from the traces of the Barograph, and from eye observations.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. The rainfall reported on any day is for 24 hours preceding 8 A.M. of that day.
